About this Bird List

Birdwatching is a captivating pastime with more and more people, young and old, becoming involved. There are many excellent bird books and identification field guides, including CALM's recently published *Bush Books* series to assist in distinguishing one bird from another. Volunteers with CALM's *LANDSCOPE* Expeditions have indicated a need for a State checklist to record bird sightings. Avid birdwatchers and beginners alike will find this list easy to use.

This checklist of Western Australian birds does not include rare vagrants. Naturalized species are indicated by an asterisk(*). It should be noted that the Rainbow Lorikeet, although introduced in the south-west of the State, is native to the Kimberley.

This list will help you to maintain a record of birds observed, not only from your backyard, but from the many and varied habitats in the suburbs, southern forests, goldfields, deserts, Pilbara and Kimberley. Over time the species recorded can provide valuable information on species numbers, seasonal changes or fluctuations in distribution as well as information on times of breeding. Reliable, long-term observations from any area provide useful information for developing conservation strategies. For the traveller, the checklist provides a convenient and permanent method of recording information that may otherwise be lost.

It is suggested that a new column be used for each locality or day of observation. Space is provided at the front of the booklet to record the area covered, route details or specific localities (including Global Positioning System (GPS) for latitudes and longitudes). A table is provided on page 31 for more detailed bird records including numbers observed and breeding information.

Although most native animals in Western Australia are nocturnal, a list of those more likely to be encountered on bush walks or at night while spotlighting, is included on pages 32 and 33. A list of the most common feral animals occurring in the State is provided on page 34. Space for any reptile records is also provided on page 34.

We would appreciate feedback from users on any modifications or additions to the checklist you would find useful. Please send any information or suggestions to the address below. Happy birding!

INDEX TO BIRDS

Albatrosses	26
Babblers25	Falcons
Bee-eater	Fieldwrens22
Bitterns 12	righird
Boobies11	rinches
Bowerbirds	Flycatchers
Bristlebirds 22	ringatebirds
Brolga 14	710gmouths 20
Bustard	Gannets
Butcherbirds27	Geese
Button-quails 14	Gerygones
Chats 24	Godwits
Cisticolas	Goshawks
Cockatoos 18	Grassbirds
Coot 14	Grasswrens 21
Cormorants11	Grebes
Coucal 20	Gulls 17
Crakes 14	Harriers
Cranes 14	Hawks 13
Crows 28	Heathwrens
Cuckoos 20	Herons
Cuckoo-shrikes 26	Honeyeaters
Curlews 15	101Ses 12
Currawongs	Jabiru (see Black-necked
Darter	Stork) 13
Dollarbird	Jacanas 16
Dotterels 16	Jaegers 17
Doves 18	Kestrel 14
Drongo 26	Kingfishers21
Ducks	Niles 13
Eagles	Knots 15
Egrets	Kookaburras 21
Emu-wrens 21	Lapwings 17
Fairy-wrens 21	Larks
	Magpie 27

INDEX (continued)

1agpie-lark	Scrub-birds
fartins 29	Scrubwrens 22
Ainers	Shearwaters 10
Mistletoebird29	Shrike-thrushes
Moorhen14	Silvereye
Moundbuilders9	Cittella ZJ
Native-hens 14	Clause 17
Native-nens	Cnine 13
Night birds	Conglorks 29
Night birds	Spoonbills 12
Noddies	Stilts 10
Orioles	Ctints 13
Osprey 13	Stone-curlews (Thick-knees) 10
Owls 20	Stork 12
Oystercatchers 16	Storm-Petrels11
Pardalotes	Cycallows 29
Parrots	Swamphen14
Pelican	Swans
Penguins 10	Swifts

ABOUT THE COMPILERS

Kevin Kenneally is the coordinator of CALM's Science Publications Unit and *LANDSCOPE* Expeditions Program. He has researched and published on the flora and vegetation of the Kimberley for more than 20 years and is co-author of Broome and Beyond - Plants and People of the Dampier Peninsula and Common Plants of the Kimberley, both published by CALM. Kevin is a past president and honorary life-member of the WA Naturalists' Club, president of the WA Gould League and vice-president of the Kimberley Society.

Kevin Coate is one of the State's most experienced and respected naturalists having devoted most of his life to raising awareness of wildlife conservation. He has travelled all over Australia leading bird watching groups and has published numerous original observations leading to a greater understanding of our avifauna. Kevin is vice-president of both the WA Naturalists' Club and the Kimberley Society.

Explore WA for 6 cents a day.*

LANDSCOPE brings Western Australia's scenic grandeur and wildlife magi right into your living room. This stunning quarterly magazine features article on national parks, forests, marine parks, birds, animals, plants and the bi issues in conservation.

It's an award-winning 56 pages of colour - breathtaking pictures of animal plants and places, created by top photographers. And you get it four time a year - spring, summer, autumn, winter.

If you're thinking about Western Australia, think about

LANDSCOPE
