

Appendix 17. 'Kimberley Biodiversity Reference List' compiled by Tricia Handasyde, Kimberley Regional Fire Management Project.

This reference list is still very much in draft format and is likely to include some errors. It currently consists of three worksheets that require further work to be amalgamated. Some records therefore may be duplicated in the different sheets. **Part A** is a list of ecological work - surveys, research, collections, etc. and references relevant to the Kimberley region. It was compiled whilst prioritising the acquisition/entry of species data by the KRFMP. It does not include taxonomic revisions or literature searches and is in no way exhaustive. **Part B** is Kimberley references received from Andrew Craig, Fire Ecologist with the Department of Agriculture. **Part C** is Kimberley references extracted by the Department of Conservation and Land Management's from the 'Woodvale' (science) library. The latter references have been assigned an initial 'Theme' (but these are not necessarily ANZLIC compliant).

Bannister, Curator of Mammals, from a draft prepared by Mrs helen Henderson (until recently Research Assistant to the Director of the WA Museum). It includes all species identified so far, apart from sub-fossil material. A number of specimens still to be identified will form the basis of a supplementary list to be issued at a later date. Two articles referring to different aspects of this collection have appeared so far: Annon. 1966 - Unique wildlifwe on (Barrow) island.

McKenzie, Johnston, Kendrick (Eds). 1991 1987/88 2233 records have been entered by Darwin, however Lat/Longs have only been recorded in database for east Kimberley sites (dates and Lat/Longs for EK01 - EK11 only). Only 12 reptile records have Lat/Long details. There are approx. 200 bird's with site details (east Kimberley) but these have still to be converted to scientific names. Are a few more Lat/Longs in the report (page 135). Need to check with Digital data extracted from published report by Bryan Baker, Owen Price and Greg Connors (Biodiversity Section of the 'Dept.of Planning and Environment/Scientific Services/Natural Systems Division', Darwin). Birds are common names only. Many Lat/Longs still to be entered. Datum still to be . . . CALM See 'Publication' field. 3/04/2003

KEYWORD_1	KEYWORD_2	KEYWORD_3	KEYWORD_4	TITLE
Acacia	Arid zone	Phenology	Aust.	Flowering and fruiting of arid zone species of Acacia in central Australia.
Acacia	Taxonomy		Kimb.	Acacia colei var. ileocarpa (Leguminosae: Mimosoideae), a new taxon from the tropical dry-zone of north-west Australia.
Animal Production	Drought		Kimb.	DroughtPlan Regional Report: Kimberley
Animal production	Supplements		Kimb.	The role of supplements in pastoral areas
Animal Production	Ticks		Kimb.	The cattle tick and tick fever.
Ants	Fire	Savanna	NT	Responses of ground-foraging ant communities to three experimental fire regimes in a savanna forest of tropical Australia.
Ants	Savanna	Fire	NT	Responses of ant communities to experimental fire regimes on rangelands in the Victoria ibver District of the Northern Territory.
Arid lands	Monitoring		Aust.	Monitoring the condition of Australian arid lands: linked plant-soil indicators
Arid zone	Fire	Soil moisture	Aust.	A framework for the ecology of arid Australia.
Arid zone	Grazing	Biodiversity		Provision of watering points in the Australian arid zone: a review of effects on biota.
Arid zone	Grazing distribution	Remote sensing	NT	Spatial distribution of cattle in rangelands as detected by patterns of change in vegetation cover.
Arid zone	Vegetation	Erosion	NT	The interpretation of vegetation change in a spatially and temporally diverse arid Australian landscape.
Aristida	Fire		-	Burning, then resting, reduces wiregrass (Aristida spp.) in Black Speargrass pastures.
Astrebla	Fire		-	Long-term variation in the density of <i>Astrebla</i> spp. in the Warrego region of Queensland
Astrebla	Fire		Aust.	A review of <i>Astrebla</i> (Mitchell grass) pastures in Australia.
Astrebla	State and Transition		NT	A quantitative state and transition model for the Mitchell grasslands of central western Queensland.
Astrebla			-	The nutritive value of some pasture species in north-western Australia during the late dry season.
Astrebla			-	The dynamics of a Mitchell grass (<i>Astrebla</i> spp.) Rangeland on the Barkly Tableland, Northern Territory.
Astrebla			N. Aust.	Studies on the Mitchell grasses.
Australian trees	Age	Dendrochronology	Aust.	Dendrochronological characteristics of some native Australian trees.
Biodiversity	Grazing	Temperate Zone	Aust.	Livestock grazing and biodiversity conservation in Australian temperate grassy landscapes.
Biomass composition	Estimation		-	The dry-weight-rank method for the botanical analysis of pasture.
Biomass measurement			-	Estimating plant biomass: a review of techniques.
Birds	Fire		NT	Effects of fire on the bird communities of tropical woodlands and open forests in northern Australia.
Birds	Fire		NT	Fire-birds of the Top-End
Botanical composition	Statistical analysis			Multivariate statistical methods to determine changes in botanical composition.

 - Using fire and supplements to improve cattle production from monsoon tallgrass pastures.
 - Application of the fire-grazing interaction to restore a shifting mosaic on tallgrass prairie.
 - Grazing impacts on spatial distribution of soil and herbaceous characteristics in an Australian tropical woodland.
 - The promotive effect of smoke derived from burnt native vegetation on seed germination of Western Australian plants.
 - Forage and browse - the northern Australian experience.
 - Burning the "Top End": kangaroos and cattle.
 - Do variations on a model landscape function assist in interpreting the growth response of vegetation to rainfall in arid environments?
- NT Publication list: fire ecology and management
