

RECOVERY TEAM ANNUAL REPORT THREATENED SPECIES AND/OR COMMUNITIES RECOVERY TEAM		
PROGRAM INFORMATION		
Recovery Team	Chuditch Recovery Team	
Reporting Period Submission date 31 March	DATE FROM: 31/03/2014	DATE TO: 31/03/2014
Current membership		
	Member	Representing
Chair	Keith Morris	DPaW Animal Science Program
Exec Officer	Rebecca Kay	DPaW Species and Communities Branch
members	Manda Page	DPaW Species and Communities Branch
	Juanita Renwick	DPaW Ecosystem Health branch
	Sarah Comer	DPaW South Coast Region
	Kim Williams	DPaW South West Region
	Rebecca Ong	DPaW Swan Region
	Bob Huston	DPaW Swan Region
	Brett Beecham	DPaW Wheatbelt Region
	Anthony Desmond	DPaW Midwest Region
Dates meetings were held	18/02/2014	
Highlights of achievements for the previous 12 months suitable for publication in <i>WATSNU</i> and contribution to DEC annual report. Provide 1-2 paragraphs summarising total number of new populations located, surveys completed, list major management actions etc	<ul style="list-style-type: none"> Chuditch Recovery Team reinstated after being inactive since the last meeting in July 2000. Chuditch translocation to the Flinders Ranges in South Australia. 	

List of recovery actions coordinated by Recovery Team Detail under the headings below the recovery actions undertaken during the reporting period. Provide separate detail for each species/community against each action. For species/community-specific recovery teams, the generic activity types below can be replaced by the specific recovery actions from the recovery plan where appropriate.	
Monitoring and survey of existing and new populations/ occurrences, targeted surveys, critical habitat mapped etc.	<ul style="list-style-type: none"> Monitoring at Perup, Julimar and other Western Shield sites, Fitzgerald National Park.
Threat amelioration eg weed control/mapping, fencing/ repairs, fire management disease management, feral/ introduced animal control, installation of roadside markers	<ul style="list-style-type: none"> Mesopredator work continues to understand the relationship between foxes, cats and chuditch at Fitzgerald National Park.
Conservation and research e.g. fire research, translocation, ex-situ conservation, revegetation/rehabilitation etc	<ul style="list-style-type: none"> Translocation of chuditch to the Flinders Ranges in South Australia through the SA Department for Environment, Water and Natural Resources. Animals will be sourced from Julimar, Perup and potentially Centaur block over March and April 2014. Murdoch University will study bloods and parasites of animals from the translocation and Katherine Moseby is looking at behaviour and survivorship as part of a PhD project.
Liaison, education/provision of advice e.g. promotional material inc newspaper/ magazine articles, liaison with land managers/ owners, input to impact assessment, development of specific management plans, volunteers assisting with surveys/ monitoring etc.	
Land use/tenure changes e.g. covenants, acquisitions, changes in land use or listed purpose etc.	
Conservation status reviews for taxa/TECs e.g. nominations for additions, deletions or change in status to state threatened or priority lists; changes to EPBC list	
Recovery plans e.g. recovery plans/ IRPs drafted, approved, reviewed or updated	

Other actions completed
