Quokka Conservation Status

Karlene Bain continues a PhD investigating habitat use and ecology of quokkas in the southern forests.

1. Quokka populations across it's range remain at the forefront of the forest logging debate. DEC staff and RT members have provided advice on a number of plans for timber extraction from areas where quokkas are known to occur.

Assessment of progress towards meeting criteria for success (from Recovery Plan)	Minimal progress as Recovery Plan was not been approved until Jan 2013.
Assessment against criteria for failure (from Recovery Plan)
