DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT

Dear CALM Colleague,

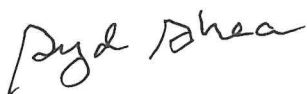

CALM is an organisation built on a vision that reflects the needs and aspirations of the Western Australian community that has entrusted 20 million hectares of lands and waters to the Department to manage for a wide range of values.

CALM has a responsibility to be aware of those aspirations and to let the community know how the Department intends to fulfil its obligations on their behalf.

This Corporate Plan, that covers the period between now and the end of the 20th Century, outlines the key areas the Department has identified in honouring our commitment to the community.

The Plan has been prepared following close consultation with the Department's Divisions, Branches, Regions and Districts and sets out what we will do, how we will do it, and what we plan to achieve.

As you will see, many of the objectives are based on establishing partnerships. However, the strongest partnership we can have is for CALM staff to continue their commitment to each other. I have no doubt that given the commitment CALM staff regularly have demonstrated in the past, we will reach our targets and in some instances, exceed them.
