

# ORGANISATIONAL HISTORY OF FORESTS DEPARTMENT, WESTERN AUSTRALIA 1919 to 1984

## ABSTRACT

*Many people contribute to a long-lived organization over its lifetime.*

*This publication documents the names of those government public servants (Permanent and Temporary) employed under the Public Service Act, who contributed to the operations of the Western Australian Forests Department.*

*Unfortunately, those employed under the Forest Act have not been included due to insufficient records being accessible.*

*The Forests Department was established in 1919 and operated for sixty-six years until, in 1985, it was incorporated into the Department of Conservation and Land Management.*

## 1. Foreword

The inspiration for this publication came about following the completion of a similar publication on the history of “the who were involved” in the Civil Service Association of Western Australia. As part of the research for that project I was also able to utilize the annual Public Service Lists as published for Government to extract the names of Civil Servants who served in World War 1 and/or 2, to create Honour Roles for both WW1 and WW2, and realized that I could also use this resource to extract the name, position title and classification of the Permanent and Temporary officers of the Forests Department since its establishment in 1919, generating what I view as an “organizational tree” of the Department.

I was fortunate to be part of this organization and its successors from 1978 to 1996 and participated in significant advances and technological changes in processes associated with Forestry Mapping and information services.

I acknowledge the support provided by the State Records Office and the Battye Library, providing access to digital and/or hardcopies of the Public Service Lists. Likewise, I acknowledge the support provided by the library staff at Department of Biodiversity, Conservation and Attractions (DBCA) in providing online access to Forest Department Annual Reports. I also specifically acknowledge the guidance and input provided by Roger Underwood, former General Manager CALM.

Enjoy the read and maybe the discovery of family and/or friends’ role in the Forests Department in Western Australia.

## 2. Preceding Agencies

Earlier forms of forest management in Western Australia were under:

*Department of Lands and Surveys: 1 January 1890 - (partly split) 31 December 1895*

*Wood and Forests Department: 1 January 1896 – 31 December 1918 – note: Transferred to Mines Department 1 July 1914.*

Following details are provided for the structure of Woods and Forests from 1909 to 1918.

## 13. Summary

Whilst the objective, through discovery, was to document the organisational history of the Forests Department of Western Australia, with the focus on identifying those public servants, employed under the Public Service Act, who were employees of the Department, I have found that I have learnt so much more about the workings of the organization and no doubt some of the people politics that occurred over the lifetime of the Department. It was unfortunate that I was unable to include those employees who came under the Forests Act, which would have consisted of “the on the ground staff” across the forest regions, if such records existed, they were beyond my reach at this time.

With access now available to the Annual Reports of the Forests Department and its preceding organization, Woods and Forests, thanks to the Department of Biodiversity, Conservation and Attractions (DBCA) Library staff, it may be possible to garner some statistical information concerning the size of the workforce employed under the Forests Act.

Information on the public servants was sourced through the State’s Battye Library, with access to annual Public Service Lists published by the Public Service Commission or its equivalent at the time, in both hard copy and digital versions, 1947 being the only year missing a Public Service List – apologies if I missed including some employees.

Fortunately, Public Service Lists were available prior to the beginning of the Forests Department in 1919, which included Woods and Forests, the preceding organization. I considered it worthwhile to include from 1909, with the first Conservator of Forests being included by title in 1917.

Corrections were also made during the compilation of this document where errors were identified, such as variations on name spelling and/or initials of given names added or dropped off. Indexing of names used was a major source of such corrections. Where possible female employees were referenced with (Ms).

I also acknowledge the source of the photographs used: National Archives of Australia (Charles Lane-Poole), Obituaries Australia (Patrick McNamara), People Australia (William Wallace), Mr. Murray Stoate (Theodore Stoate) and Chess Association of WA (Allen Harris). All other photos sourced from DBCA.

In closing, I unreservedly apologise for any errors I may have created, and offer to take on board any feedback provided, with the aim of republishing a latter edition.

Thanks, in anticipation
