

Following the public submission period, consideration will be given to moving the boundaries of some sanctuary zones 200 metres from the mainland high water mark to allow for commercial and recreational fishing from and close to the shore (identified as red hatched areas on this map).
 Note: Due to the scale of the main map, some of these areas may not be visible.

Fishing will be allowed in proposed special purpose zones (cultural protection) and (whale conservation).
 For further details, see Permitted uses section on pages 94-96 of this plan.
