

**NOTICE OF
PUBLIC INFORMATION FORUM**

STIRLING GROUNDWATER ACIDITY

The Water and Rivers Commission has completed its investigations related to the Stirling acid groundwater issue and has provided a detailed report to the Environment and Heritage Minister Dr Judy Edwards.

The report identifies several contributing factors for the acidity and provides recommendations for remediation.

The Water and Rivers Commission and the Department of Health invite members of the public to attend an information forum on the report findings.

Date: Wednesday, 24 April
Time: 7:00 – 9:00pm
Venue: Toscana Association
100 Jones Street, Stirling

Information will be presented on:

- factors identified as contributing to the groundwater acidity;
- recommendations for remediation; and,
- implications for public health.

Open discussion will follow the presentations.

Copies of the report may be viewed on the Water and Rivers Commission website at www.wrc.wa.gov.au Alternatively, copies of the executive summary or the full report may be obtained from the City of Stirling Administrative Centre, Civic Place, Stirling.

**ALL MEMBERS OF THE
PUBLIC ARE WELCOME**

Please direct inquiries to the Department of Environmental Protection on 9222 7000 or the Department of Health on 9388 4997.
