### THE EFFECT OF TREE CROPS ON WATER TABLE LEVELS

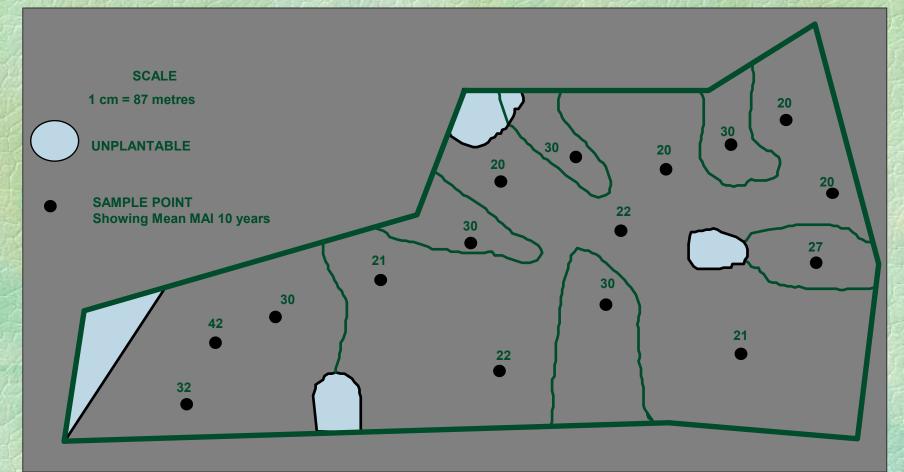

STENE'S ARBORETUM

Report No. WS 33

The objective should be to provide a secure supply of high quality wood fibre at the lowest price in the ship hold

### *E. globulus* site productivity assessment for a typical farm

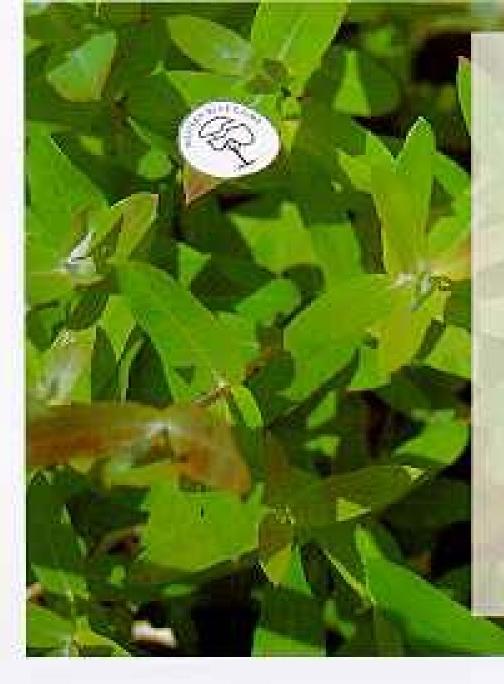

# Effect of chemical weed control on *Tree Crops*

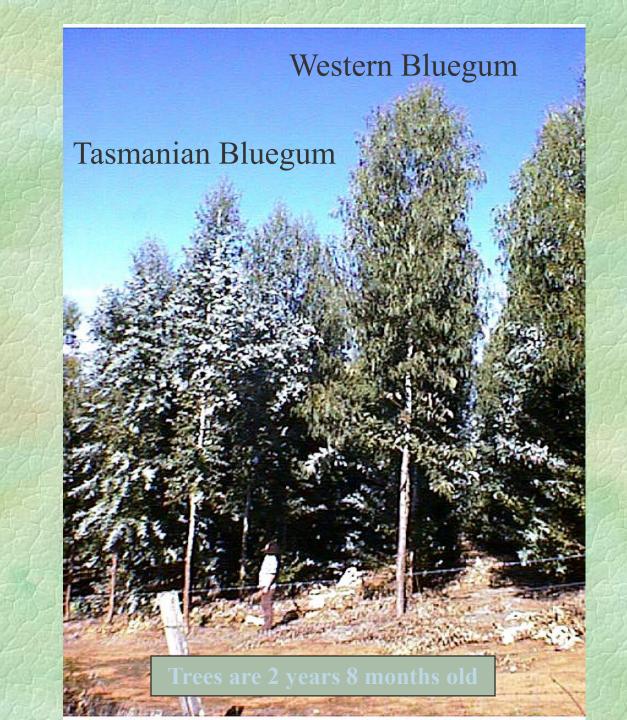

### Eucalyptus globulus Breeding population trials Program commenced in 1980

Source	Parents	Number	Area	Trees
CSIRO 1987 - 90	766	29	117 ha	107 000
King Island	83	1	3	3 000
Salt Tasmania	44	3	2	2 000
Orme	73	1	4	4 000
Orme (Prov)		2	11	6 000
APPM	73	4	4	3 000
CSIRO cc	135	1	3	3 000
Total	1174	41	144	128 000

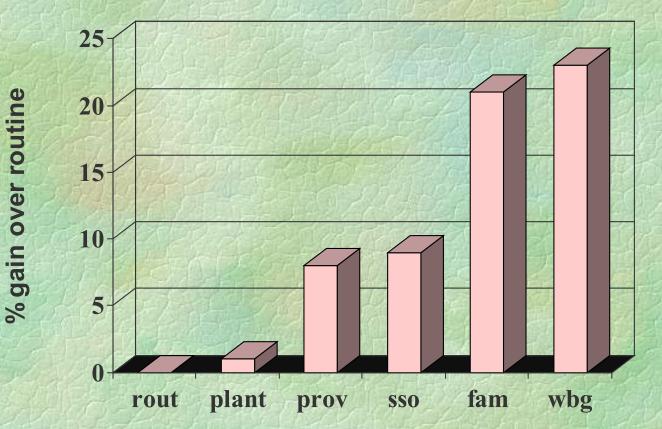

Genetic Gains Trial: EG 44 and EG 45 (1994) Measurement on April 1996 wood volume

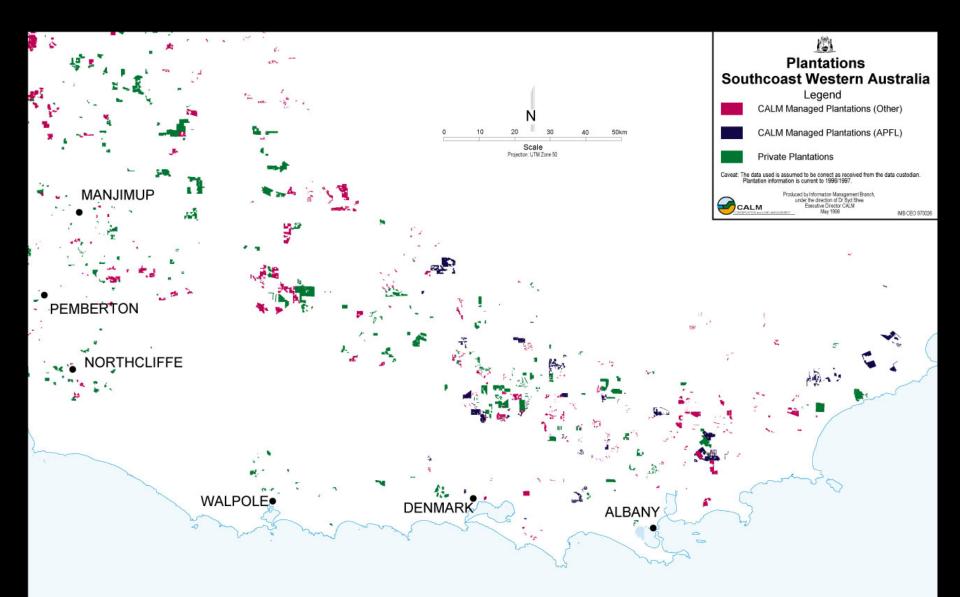

#### CALM has joint ventures with 1303 farmers

CALM has contracts with 84 land management contractors

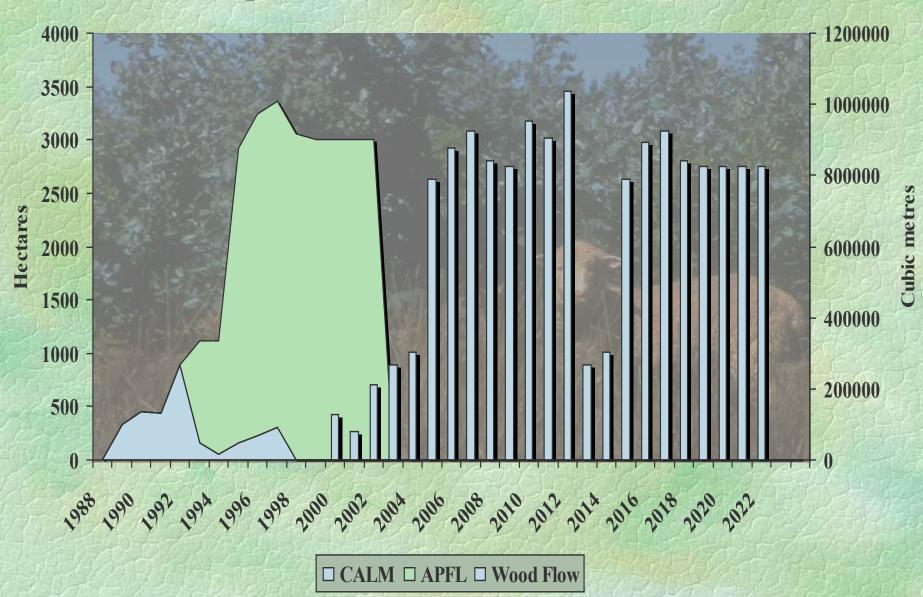

### Area of bluegums planted each year (CALM and APFL) and predicted wood flows

Investment to date:

- □ \$20 million
- Investment to complete plantation program:
  - □ \$30 million

Investment required for harvesting, transport and processing:

- \$20 million to upgrade facilities at Albany Port
- □ \$15 million for a mill to process the harvested logs
- □ \$3-4 million for a transport system
- □ \$16 million for harvesters
- □ \$12 million for loading machinery
- □ \$22 million for log trucks

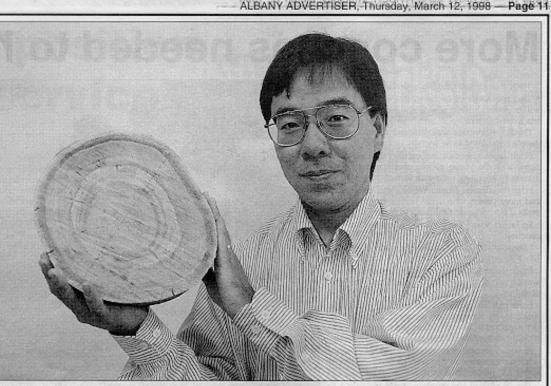

## Water Drawdown under Bluegum Plantations compared to Pasture

WINNING WAYS: Albany Plantation Forest Company director Tom Okada plans to accept the Asia Pacific Marketing Federation's inaugural gold environmental marketing award in Bangkok later this month.

#### Conservation work wins praise

AN Albany company has won an international award for its services to the environment.

Albany Plantation Forest Company this week took out the Asia Pacific Marketing Federation's award inaugural gold marketing award, launched last year to encourage environmental conservation.

It was chosen from four finalists, from companies working in the 15 countries represented in the Asia Pacific Marketing Federation.

The company was formed in 1993 and plans to establish more than 20,000 hectares of bluegum plantations in the Albany region. Working with CALM, it had already

planted nearly 14 million trees locally. Its parent companies Oij Paper and Itochu Corporation are part of a WA-Japanese joint venture (with Bunnings Forest Products) who are planning a \$30 million woodchipping mill in the Great Southern. The project has been tipped to be operational by next year. Director Tom Okada said the company was committed to preserving the global environment.

"Our project to establish commercial bluegum plantation is a long-term commitment to the environment and economy of the Albany region," he said.

"Our sophisticated sharefarming scheme, which is being carried out in partnership with the local community, has now brought APFC international recognition."

Mr Okada will accept the award, with representatives Oij Paper, Itochu Corporation and Senshukai Co Ltd, at a ceremony in Bangkok on March 26 by her Royal Highness Princess Maha Chakri Sirindhorn. It is the second environmental award won by the company. In 1995 it won the Landcare Australia award for WA business.
