

MEMO

TO: See List Below
FROM: Dr Ian Abbott
SUBJECT: Mycological Research in CALM

You are invited to attend an information exchange on the above topic, to take advantage of the visit of Mr Jack Simpson from NSW State Forests.

Each presentation (informal) will be 20 mins + 10 mins discussion.

Venue: Training Centre, SOHQ, Como
Date: Tuesday 15.2.94
Time: 0830 - 1230

0830 - 0900 Dr Stan Bellgard ✓	The control and management of <i>Phytophthora megasperma</i> in the national parks of WA.
1LL — 0900 - 0930 Ms Barbara Komorek	The control of <i>Phytophthora</i> in native plant communities.
0930 - 1000 Ms Felicity Bunny ✓	Biology and ecology of <i>Phytophthora citricola</i> in native plant communities affected by mining.
1000 - 1030 Morning Tea	
1030 - 1100 Ms Jocelyn Bathgate ✓	Biology of <i>Diplodina</i> sp. and control of the canker disease it causes on <i>Banksia coccinea</i> .
1100 - 1130 Dr Bryan Shearer ✓	<i>Armillaria</i> and <i>Diplodina</i>
1130 - 1200 Mr Mike Stukely ✓	Resistance to <i>Phytophthora cinnamomi</i> in Jarrah and <i>Pinus radiata</i> .
1200 - 1230 Dr Elaine Davison ✓	Mycological aspects of forest pathology.

Each scientist has been asked to speak on the significance of their mycological research, the application of science outcomes to CALM's management practices, and future research priorities.

Dr Ian Abbott *Ref.*
Science Adviser

February 4, 1994

Invitees:

Science and Information Management Council members

(Dr J. Armstrong, Dr P. Christensen, Dr N. Marchant, Dr T. Start, Dr I. Abbott)

WA Dieback Review Panel members

(Dr F. Podger, Dr S. James, Dr M. Mulcahy, Mr P. Jones)
