Dear Mr. Frazer,

Teal Bands 12270 to 12276. ^{Concerning}

I was not aware that there were used, last season, that is why I told you that as far as I could remember

Teal Bands had been used only on my brothers farm.

I have been working here at Boxwood Hills throughout the season & I was careful not to shift any Bands or records with me, keeping them all in one place. However things did not go smoothly at all.

I will give you the ^{2/29} records as given to me.

Barrie Pauley,
Box 85 Wickepin.

March 20, 1967.

Dear Mr. Fraser,

My record book has been shifted from its usual place. I think one of my young nephews has played with it and someone has put it in a "safe" place away from them. I have alerted all the family so it should turn up in a day or so.

The band numbers you require 12269 onwards were used on Teal in 1965 on my brothers farm Phil Pauley 25 miles due East of Wickepin.

The bands I have to date are 12277 - 12300 so therefore 12276 was the last band used. I am certain Teal bands (small ones) have not been used the last two years and certainly not this last season passed.

To avoid this inconvenience of misplacing records I am now keeping two books.

The ducks I have banded this year are all Maned Geese here at home.

Maned Geese:

10085	T.G. Pauley
10086	Williams 440 on 2.10.1966.
10087	

Maned Geese:

8749)	
8750)	T.G. Pauley
8751)	Williams 441 on 20.10.1966.
8754)	(Bands 8752 and 8753 I still have).
8755)	

I am hoping this letter will help you.

Sincerely yours,

BARRIE PAULEY

150/52

Dear Sir,

Thank you for your advice of April 24 concerning Bands 12270 to 12276. I notice that you say that these were all placed on Grey Seal at Norm White's farm on Williams Location 4551. Unfortunately, you haven't told us the date when each was banded. As you have previously indicated that these were all used at your brother's farm we will have to adjust our records, if your last advice is correct.

It seems quite apparent to me that it was unfair of us to ask you to carry out this banding work which has to be done absolutely meticulously. As we have our own banding unit now, consisting of two full-time technical assistants directed by a graduate research officer, we will be able to band all the birds necessary on a scientifically calculated programme. I will have a warden call on you in the not too distant future, therefore, and pick up from you the unused bands. These will be required by our own workers as the special monometal bands we had made for our programme have proved unsatisfactory we will have to resort to using the aluminium ones until a new batch can be ordered.

I must take this opportunity to thank you very sincerely for all the effort you have put into banding and to assure you that we will certainly continue to advise you of the date and place where any of your bands are recovered.

Yours faithfully,

(A.J. Fraser),
DIRECTOR

10th May, 1967.

Dear Sir,

Would you please supply me with details of your banding operations.

The last report was on band No. 10186-10187.

At the moment I am particularly interested in band No. 10215 which was recovered by Mr. D. Young of Cape Riche.

Yours faithfully,

R.P.

150/52

Thank you for your advice of April 24 concerning Bands 12270 to 12276. I notice that you say that these were all placed on Grey Teal at Norm White's farm on Williams Location 4554. Unfortunately, you haven't told us the date when each was banded. As you have previously indicated that these were all used at your brother's farm we will have to adjust our records, if your last advice is correct.
