JL_(1992 on)_65	65	(02-11-2013 / Current)

THE END (AS AT 07/06/2014)

The total number of field notebooks as at 07/6/2014 is 1 (1969-70), plus 21 (1970-84), plus 66 (1992 on), equals 88 work notebooks, plus 5 un-numbered personal notebooks (2004-2009), equals 93.

* It seems unlikely that JL did not create field notes between Oct 1984 and Nov 1992 (an eight-year gap in this series). Perhaps there are notebooks that have yet to be rediscovered (as at 07/6/2014) or perhaps JL's field notes during this period were incorporated at the time into the relevant project files (JL has a vague recollection of doing this at some stage).

** These five un-numbered notebooks (Nov 2004 to March 2009) were created in parallel (i.e. overlap chronologically) with the numbered series and were principally of personal rather than work field activities (bush walks). They have therefore not been included in the numbered series.

6261854N
Ester WPT 043 ^{clim 107m}

at the centre of an 18 m

hole by c 25 m long (downslope)
area of bare, deep,

(18)

orange brown ground where
absolutely everything has died -
many short steep stems of
former shrubs sticking up 5-10
cm. There is a short
fence with ~~posts~~ where
an animal (has to be pig?)
has uprooted the soil and
~~posts~~ wallowed in it.
I took ~~three~~ ^{two} soil samples
and photos (→ N° 35)
There is one small but distinct
brown point in the upturned
clayey soil.

pH 3.06

(19)

Saw a Bank Swallow (1)

Just 25 m NE of here.

Est WPT 044 ^{50 355-841E}
^{6261546N}
at Jambi tree ^{elev 107m}

at base of trunk hollowed
out and very flat down

"traps" in the sand sheltered
beneath.

There has been ~~an~~ insect

calling - nonsyllabic - seep seep
or peep peep from all
around me for 15 minutes
Sounds like bird but is it? 2

(20)

I saw four smelt c 3-5 cm
skins (probably) at
different times during the winter.
I suspect ~~either~~ the flowling
of the Red-claw Flounder
(or the recent rains?) is
the reason for ~~this~~ ~~them~~
~~being~~ we seeing more at this
time of year (have noted
last year or previously).

Back to vehicle at 1605 hrs.

Distance walked = 1.91 km.

(21)

Mon 2 May 2005

Wander Behind Lake (proposed)
0.0 km (0935 hr). Turn
right (S) from Vasey Hwy onto
Lilly Rd.

c 50 m south of Lilly Rd I
encountered a group of c 20
White-bellied White Cormorants. Was
able to observe them closely for
c 10 minutes. At least
c 5 (and probably all) were
Bristles (long-billed) Cormorants.
I observed one feeding on
a Merri ant at the top
of a c 15 m tall Merri
(*Corymbia calyptrata*) tree. Another

Neely was chewing away the
rotten ~~end~~ extremity of a
dead branch at the base of
another c. 15 m tall, large,
Merr (*C. gomphophila*) tree.

It shortened the branch by
ca 25 cm while I was watching.

Another *Berlandia* (arboreal) appeared
to feed on a seed that appeared
to have been extracted from the
cones of a Bull Bush (*Berlandia*
grandis). The location
for all of this was in the
WNP (on west side of Lally Rd)

c 20 m west of
Sta 50 362853 E

right. Ignored it. There were
2 Ridge-top Road line.

Est. WPT093 82978 E
77881 N
elev 109 m

Where my track T-junction
onto Borden Rd. I went right,
continuing on a N.W. direction.

Estn WPT084 82663E (78)
78013N
elev 138m

where I briefly saw

1 adult Kestrel at 0925 hr.

Estn WPT085 82524E
78032N elev 134m

where I saw no more birds

T junction on a more substantial
vehicle track/road. This appears

to be Roubay Rd. The left "branch"
heads south.

I headed roughly N along Roubay Rd
until I came to WPT083 (which
on a previous trip). This is where

Meriden Rd heads off steeply, SW.
Reset Trip meter to 0.00 km here.

Heard 2 Kestrels here. (0930 hr)

(79)

I then turned back, ^{retracing} retracing
my steps.

Arrived back at WPT 093 at
0950 hrs. Instead of turning
back to left and retracing my steps;
I continued straight on along
Borlase Rd, in a S-SE
direction.

83894 E

Estn WPT 096

77077 N

where a track comes in from
the N.E. ~~I found it~~
(left) I took it. It ~~ended~~
developed to a well track,
crossed the creek (flowing
fast) and joined the track.

I had set out on this morning.

(80)

Arrived back at vehicle (at WPT 090). Found that my Magellan & Garmin Garmin GPS had completely died in the last 200 m back to the vehicle. Could not restart, even with external power from vehicle.

5.3 km (11 km). Parked vehicle at edge of Parley Rd where ~~2nd~~ ^{3rd} line what I believe is Rockway Rd, takes off, heading generally north. Had a canyon here.

1140 hrs leave vehicle,

(81)

Walking generally N. along Rocky Ridge

1146 hrs saw 1 Antelope Raven

1153 hrs 1 Antelope putting out -
feeding on material between two
leaves of Woody Pear Heads
- the two leaves are bound
together by the (webby?) mass

1202 hrs. A spot where
it appears that a cat? (from
prints) has pounced on / dug
for something on the sandy
soil. Few prints only
visible in the disturbed earth.

(82)

1216 hrs - 3 very noisy
Western Tanager.

1222 hrs - Logging area at
top of rise - 3 Scarlet Robins

1230 hrs - several Sparrows seen,
and Brown Honeycreepers heard only,
in a patch of Paint Bush
(flowering)

1237 hrs - leave logging area.

1244 hrs - 10[♂] + 1 ♀ Cuckoo
Whistler. Can also hear a
Spotted Redstart.

(83)

1250 hrs. A less-used
track joins from the left.
It looks down slope.
I keep going ^N on Rocky Slo.

1255 hrs. A track comes in from
the right. I think it's Bell's Rd
(the section I walked this morning)
I ignore it.

1258 hrs. A track joins from the
left. It goes steeply down slope.
I believe this is Maudslayi
Rd and I take it. (But not
until after I found over-bed
trace ^{F.H.} 45 c. 65 in further
along Rocky Slo.)

1309 Lm Sew ⁽⁸⁴⁾ ~~(see in 1309)~~

2 Spotted Pardalotes - Rich
Colours of lowest underparts.
Came here a Striped Pardalote
and Western Gerygone. And
came here a Spotted Pardalote and
a Grey Fantail and a Quabing Frog.

Note there have been far fewer
mosquitoes this trip than last.

I haven't even had to use
repellent this trip. Henry &
broke here. Also saw a
"straggly breasted" Thornbill
(Island)

Also 2 Weebills (2) "Sleep-sing"
"Bury" call. Prominent streaks
light-colored line above the eye,
extending down (to?) base of
bill). Also Sparrowbill

// This is a nice spot to be
near to breakfast.

1330 hrs - leave.

1335 hrs - another silent, shy Kookaburra

1348 hrs - Track is closed to.

Thicket - yellowish scrubline

1 Coloured ♂ and 1 not

coloured "Chestnut-shouldered"

Wren ()

1 White-breasted Robin

(86)

1413 hrs - 2 White-breasted

Robins in hedge near

Creekline ~~1~~ 1 or 2

Wrens

1443 hrs - small (3-5) group
of noisy, chattering Western
Thornbills

1450 hrs - reach the end of
Mendenhall Rd - ~~at fork~~
where it meets Bonning Rd.
Head SE by compass

1507 hrs - distributed c group

(87)

of roughly 20 Gray K'roos.

1515 hrs - reached the top of
the rise. There has been
a very heavy roo gazing pressure
in the area I have walked
through.

1539 hrs - observed 2 more
Gray K'roos.

1555 hrs - 1 White-bellied Shearwater

1603 hrs - back at vehicle.

23/9/05

(88)

Estn WPT 031 at vehicle
at 1550 hrs.

Estn WPT 032 at NW corner
of rip fence at 1605 hrs.

Estn WPT 033 at offal pit (slump)
(+ cross) at 1643 hrs.

Back at vehicle at 1740 hrs.

Total walk = 5.08 km
(by GPS)

(89)

Sat 12 Nov 05

Start from 8 Peter Way
at 0945 hr.

Stop at 1048 hr at
boat ramp - Linde (Lined
with Monclers Corner!)

Distance walked = 5.25 km
(GPS)

Search (4?) down
crossings.

1332 hr. Stop to rest

c 200 m W of Netwicks
See Rescue Club.

Distance walked = 16.33 km

(90)

Start walking again
at 1400 hrs.

1435 hrs. Stopped at park
bench. Distance walked = 19.16 km

At 1446 hrs - started walking
again.

1509 hrs - reached Coffee shop
at Dunderberg. Distance walked
= 20.83 km.

Weight of pack
was 10.5 kg.

Notes: Suncscreen, road map,
foot repair,

(91)

Mon 21 Nov 2005

Walled 5.33 km along the
beach, joggling from water's
edge to dunes, heading
west (and return) from 8 Pels
Weg Ben. Left at 0604 hr
& returned at ~~0617~~ 0717
hr (1 hr 13 min). Did
not stop. Pels weight
(all up) was 15.5 kg.

Fri 25 / 11 / 2005

Same walk as on Mon 21/11
but this time 5.20 km
Started at 0601; ended at
0735 hr.

92
Tues 29 Nov 2005

Start at 0450 hrs. in Wellen non
stop to mouth of Buggings Drain,
arriving 0507 hrs, leave

Wellen 6:05 hrs. 10-15 min
rest then walked all the way back,
and on to the Vase Division Drain,
then back to 8 Park Way.

Finish 0728 hrs.

Total 14.86 km walked

With same pair weight (≈ 15.5 kg)
as last two walks (21/11 and 23/11)

Had 2 or 3 additional 5 min breaks
at approx 1 hr intervals.

(93)

Thurs 01 Dec 05. Walked
with club by path from Yellingup
car park to discharge point
of river at Smiths Beach
and return. Start 0531,
Finish 0705 hrs. Distance
walked was 6.31 km.

Sat-03 Dec 05. Started
from Dunsborough - - -
at 1305 hrs. (Est. LPT 046)
Stopped at Pt Piquet, where
"Stewey" was recording
passing whales. In the
time I was there we saw
one Blue Whale and one

(94)

Harbour seal whale with calf,
migrating south to Antarctica
and passing within 100 km of
the Point, apparently ~~retreat~~
in about 20 m of water.

Walked on to Eagle Bay Cape,
leaving at 4.30 pm. Closed!

GPS says distance walked is
5.36 km, but during some
of this distance it lost track
itself off. I reset it to
zero.

Blue whale 1 km off

(95)

Mealy's Beach

Beck at car at Dunbar
at 7.36 pm

Dunbar walked via Eye Bay

= 6.74 km

x 2

= 13.48 km

Sun 11 Dec 2005

Parked car at Eye Bay.
Left here on foot at 1320 hr
walking west to Looking Point
and then to Barker Bay.

(96)

It took from 2.10 pm to 2.40 pm to walk the length (E → W) of Barber Bay, into a strong W wind. Reached at far western end of Barber Bay from 2.40 pm until 2.59 pm. Distance walked to this position was 4.79 km (GPS).

Reached the Cape Akrotiri Lighthouse Display & Gallery at 3.43 pm. Total distance walked = 7.20 km.

Left there at 4.19 km. Walked non-stop to grove of trees at east end of Barber

(97)

Boy, coming here at 5.20 pm
Left here at 5.33 pm and
returned to vehicle at 6.33 pm
Total distance walked
= 13.38 km (GPS)

Tues 27 Dec 2005

Left home (0.00 km) at
0425 hrs. Walked W along
bank to Dreyer's stream,
coming at 0535 hrs. Distance
walked = 6.08 km (GPS)
Crossed 3rd stream before
reaching car park next to brick
ramp at N end of Dunsborough.

Koror. Reached here at

1014 hrs. Plan to leave &

long break here. Distance

walked (total) today = 22.90 hrs.

Changed ETA to 11pm

Resume walking at 1150 hrs →

Eagle Bay Store at 1357 hrs.

Total distance walked = 29.40 hrs.

West end of Jumbo Bay at

1605 hrs. Total distance

walked = 34.07 hrs.

Reached Cape Nakoror at

|||||

(99)

Lighthouse at 1720 hrs

Distance walked (Total)

= 35.90 km.

Pruney at 1744 hrs

= 36.34 km

Sun 5 Feb 2006

Left home at 0444 hrs.

walking west to Bueyengays

Down along the beach.

Stopped here at 0858 hrs

Distance = 6.06 km.

Returned home, arriving at (100)

0748 hrs. Total distance
walked = 12.26 km (GPS)

Thu 9 Feb 2006

5.40 am (?) The "1.5 km"

Dry lake walk, plus up onto
the rocks and back down

= 1.44 km (GPS)

0615 hrs.

Th 23/2/06. 0640 hrs left

--- Rd near Mt Dubouche,
walked across paddocks to rd P,

Then S, then W down track in
slashed firebreak to the coast
(Eye to Eye Track). Couldn't find
safe route down almost cliff face
to water edge. Estd
WPT 047

Distance walked to this WPT
was 2.10 km. Time 0732
hrs. Very low battery so
turned GPS off.

Returned up the track, all
the way to top of Mt Dunebrook.
Found the first 1/2 stressful.
It was about 0830 hrs
before I needed car
again.

Thurs 2 March 2006

0800 hrs 5.36 km
213 m, 1843 steps

0552 hrs 0.01 km 0000 paces leave vehicle

Top of Mt Druish
