

Tues

David returned
- pinnales.

- all birds left 2nd island.
- all cackling at W end of Lake.

ABC left that night

- talked about pushing boats + camp at W end. (plan 1)
- least success (plan 2)

Andy ~~Karen~~ been → weekend OK.

Jeremy ^{30/5} - pay for air money?

- he will get back to me re paying for ^{rent} flight - probably NO.
- Mark will contact me also with info on best trip.
- how is Ago etc?

Clive - glaka coming.
- fly without bands.
- sightings.

- 4 weeks.

Clive - will do SA + visit.

~~Adrian~~ Bands

out for ~~Adrian~~ Still + Wagoner

* PROTECT

- 12-18 mths →
- go out looking for banded + flycatcher
 - record return to normal areas
 - (= price propn. without black + chest bands)
 - 50% juveniles.
 - Rothrock - adults back fast, or juveniles.

* Fesc BandNotes send to Clive

Message from Jeremy ^{Hogarth} Th 18/5/95 at 1310 hrs

- 50 k from Island ^(Mark + Cam) they found 1000's of chicks - at least some near flying stage
- ~~at~~ Mark will fly to Melt Set
- Will fax his maps / notes to me next week and ring me
- they suggest the Gorge many times
- no predators except wild rooster

- caught one banded chick - didn't get number but did record date, time, location
