**Attachments:** Banded stilt WA.xlsx

Hi Jim

Here are the sightings reports that we have in our records (sorry it has not been cleaned up, but you will find what you need clearly enough I think).

It appears that we also don't have the Lake Ballard banding details recorded in our electronic system either. I can check for a copy of the original field data sheets that Clive may have had at his place when I get a chance to get there (he is in the field for the next couple of weeks at Broome).

Let me know if you get a copy in the meantime.

Please get back in touch if there is anything else I can help with.

Regards

Rog

Roger Standen

Operator of the leg flag sighting database on behalf of the AWSG.

Email: [flagging@awsg.org.au](mailto:flagging@awsg.org.au)

Please notify AWSG of flag sightings through the AWSG website <http://www.awsg.org.au/reportform.php> if possible

Dear Jim

Thanks for the request. No issues providing these data to you, as it was a (at the time) WA CALM project.

I have hit a major problem - I have come up with no banding records whatsoever. We do not appear to have these data, as I had thought we had keyed in all data from 1995 already. If we do have it, it will be on paper in our off-site storage facility – so not much use for your request!!

I did however manage to locate two sightings from Lake Ballard, both of which are attached as recovery reports.

You should also contact the Australasian Wader Study Group, as they curate the sightings of leg flagged birds – so may have some sightings in addition to what I have provided. Their email is: [flagging@awsg.org.au](mailto:flagging@awsg.org.au), the

14/02/2014

contact is Rog Standen (copied in).

If I get a chance I'll have a look out at store to see if we have anything. Perhaps Grant still has a paper copy?

Cheers  
David
