EUCALYPTUS SPECIES LISTING FOR THE ESPERANCE AREA. FEBRUARY 1983

This listing is compiled from literature records and supplemented with line diagrams of fruits and buds.

The list is only a rough guide to aid in identification within the nominated area and as such is open to variations as more material becomes available.

Botanical publications relevant to the listing:

Chippendale, G.M., Ludek (1981). "The Natural Distribution of Eucalyptus in Australia". Australian National Parks and Wildlife Service, Canberra. Special Publication No. 6: 1-192.

Chippendale, G.M. (1968). "Eucalyptus buds and fruits". Forestry and Timber Bureau, Canberra, 1-96.

The compiling was carried out by R.J. Cranfield, and drawings marked  were drawn where required.
