Subject: Attention Dbca librarian

[External Email] This email was sent from outside the department – be cautious, particularly with links and attachments.

To the DBCA librarian,

Please find attached significant bird data records for over 30 years on the untrained forest islands of the Avon river, Northam.

John Masters of Northam shire and his dad Jim have been collecting this data from the late 1930's.

The data is significant because it is a record of the ecology of the only section of the Avon river bed not bulldozed from Brookton to Toodyay 1958-1972.
We request this data is accessioned in the DBCA library.

Please confirm.

My regards

Bronwyn Humphreys
