Department of Conservation and Land Management

The Department of Conservation and Land Management directly manages national parks and marine parks, State forests and timber reserves, nature reserves and marine nature reserves, and any associated fauna, flora and forest produce. It is also responsible for conserving flora and fauna throughout the State.

The Department manages the State's public lands on behalf of the public, and is committed to the principle of public participation.

It is therefore in the Department's interest that the public have a greater awareness and understanding of nature conservation and management issues.

For further information regarding the Department's activities, land management plans or recreation in the State's national parks and State forests, please contact your nearest regional or district office.
