Pathways for  
youth action in  
**BIODIVERSITY  
CONSERVATION**

DEPARTMENT OF  
**Conservation  
AND LAND MANAGEMENT**  
Conserving the nature of WA

**I**N partnership with the community, we conserve Western Australia's biodiversity, and manage the lands and waters entrusted to us, for their intrinsic values and for the appreciation and benefit of present and future generations.

The Department is also responsible for conserving native plants and animals throughout the State.

The Department's EcoEducation programs provide pathways that foster this partnership with the community. They help youth to develop awareness and appreciation of the biological and physical diversity natural to Western Australia and they promote involvement in and support for its protection, conservation and restoration. Through these programs young people are given opportunities to learn about and gain hands-on experience with conservation issues.
