CARERS' LIST

2002

## **Wildlife Carers' List July 2002**

The information in this booklet is privileged information and the wildlife carers names and telephone numbers should not be given out (except within the guidelines of this publication) or supplied for other lists without approval. Please contact the *Volunteer Coordinator, Department of Conservation and Land Management* for further information.

Wildlife Carers,

This is your July 2002 Wildlife Carers list. Please dispose of all other lists, as the information may be outdated and incorrect.

This publication has been forwarded to veterinarians, local council rangers, registered wildlife carers, reptile removers and the Department of Conservation and Land Management's Wildlife Officers throughout the state.

As the majority of the wildlife carers and reptile removers are not known to the Department of Conservation and Land Management personally, we cannot guarantee their ability to accept all animals at all times, or if they have the expertise to handle every situation that may they arise.

The wildlife carers and reptile removers are valued volunteers with the Department of Conservation and Land Management we request recipients of this publication list to be mindful of time and financial constraints placed on volunteers, when providing this information to the public.

It is due to the wildlife carers generosity of spirit, dedication and commitment we are able to provide this service to the community for the care of Western Australia's sick, orphaned and injured native wildlife.

### **HOW TO USE THE LIST**

- Give several alternative wildlife carers and phone numbers.
- When giving information don't always refer to the first person in the area, as we need to spread the load.
- Advise the finder to allow the phone to ring for a reasonable period, as the carer may be busy feeding or treating fauna.
- In most cases the caller will need to deliver the wildlife to the carer. (Volunteers give considerable time to wildlife already under their care and it can be difficult to leave them, also numerous pick-ups are an additional expense for the carers.)

## Wildlife Carers' List July 2002

### METROPOLITAN AREA

- Ask the caller their suburb.
- Consult the index of suburbs and locate the map reference number. Volunteers are listed under the map reference.
- If you are unable to locate a Carer in that area, ask the caller to list other suburbs close to them.
- The categories marked designate the type (s) of wildlife cared for by that particular wildlife carer.

B Birds

M Mammals, eg kangaroos, wallabies, possums, etc.

R Reptiles eg. lizards, goannas, snakes, turtles.

Birds of Prey hawk, owl eagle etc

Corvids crow, raven

Waterbirds ducks, swans, herons, etc

Seabirds gulls, terns, penguins, etc.

### COUNTRY AREAS

Country carers are indicated on a separate State map with the numerical grouping radiating from the metropolitan area, based on CALM's Regional structure:

|  |                                |
|--|--------------------------------|
| 900 South Waroona to Bunbury           | 909 Moora (Jurien Bay)         |
| 901 South West Region (Margaret River) | 910 Merredin                   |
| 902 Katanning                          | 911 Goldfields (Kalgoorlie)    |
| 903 Warren (Manjimup-Pemberton)        | 912 Geraldton                  |
| 904 Frankland (Walpole-Denmark)        | 913 Shark Bay Area             |
| 905 Albany                             | 914 Gascoyne (Carnarvon)       |
| 906 South Coast Region (Esperance)     | 915 Exmouth                    |
| 907 Wheatbelt (Narrogin)               | 916 Pilbara (Dampier-Karratha) |
| 908 Hills (Gingin-Northam areas)       | 917 West Kimberley (Broome)    |
|  | 918 East Kimberley (Kununurra) |

Use a similar procedure to find the nearest wildlife carer. Towns have been listed alphabetically within each region. Many country wildlife carers are farmers so advise the caller to try the number several times if they don't receive an answer on the first call.

In addition, District Wildlife Officer's numbers for each area has also been included for any emergency assistance.

## Wildlife Carers' List July 2002

### Basic First Aid -

Wildlife should be placed in a quiet, safe place away from children, television, dogs and cats. Stress can kill wildlife if over handled especially the baby animals. Do not feed or give liquid.

Towels used to throw over birds or possums may help prevent injury to you and the animal.

Beware of:

- sharp talons on hawks and owls
- being bitten by parrots or lizards
- sharp beaks stabbing your eyes
- clawing and bites from possums
- adult wild roos can inflict serious injury and should be approached with extreme caution.

### Snakes -

Included in the 2002 list are *Reptile Removers* located under their suburbs. When referring a reptile remover number, please make the caller aware that a charge/donation for the service may be applicable. Most reptile removers have other work commitments, but are usually happy to give phone advice. (If a reptile remover can not be found, refer the caller to a commercial "pest or vermin remover" found in the Perth yellow pages.)

### Updating your information -

If you change address, telephone numbers, going on holiday, or wish to be removed from the list please, please write or email the information as soon as possible to -Volunteer Coordinator ([margb@calm.wa.gov.au](mailto:margb@calm.wa.gov.au) or Locked Bag 104, Bentley 6983).

### Thank you,

- ◆ To the Wildlife Carers, Veterinarians and Reptile Removers listed in this publication, for your continuing dedication and commitment to the welfare of native wildlife of Western Australia.
- ◆ To *Department of Land Administration (DOLA)* for use of their maps.
- ◆ The Wildcare Helpline volunteers for their continuing support on the roster and updating of information.

Margaret Buckland
