Farming and Pines

You are invited to attend
a
Public Seminar
on
Farming and Pines

when? Wednesday, 11th July, 1984

where? Manjimup Hotel, Winter Court
9.30 a.m.-5.00 p.m.

The Forests Department of Western Australia extends an invitation to all interested in the profitability and practicalities of growing pine in the Manjimup district to attend a free public seminar.

Topics covered will include:

- The profitability of growing pine vs grazing.
- Integrating farming with timber growing.
- Growing and selling pine.
- Livestock Management in Pines; and other related subjects.

Guest Speaker, Neil Barr, founder of the New Zealand Farm Forestry Association, is a working farmer who changed his cash earner from bull beef for the U.S. hamburger market to timber several years ago. He has been actively establishing a variety of timber crops on his property for over 40 years.

This is your chance to get your questions answered by a man experienced in the practical side of tree farming, and selling his produce.

Other speakers from C.S.I.R.O., the Forests Department, and the Agriculture Department will present papers based on the latest information available from field trials. A full Agenda is attached.

- Morning and afternoon tea will be provided free of charge.
- Please return the reply-paid registration card enclosed to assist with catering arrangements.

R.S.V.P. 10th July, 1984.
