PUBLIC SUBMISSION

on the Draft Management Plans for
Thomsons Lake Nature Reserve and
Forrestdale Lake Nature Reserve

To make sure your submission is as effective as possible:

- make it clear and concise;
- list your points according to the subject sections and page numbers in the Plan;
- describe briefly each subject or issue you wish to discuss;
- say whether you agree or disagree with any or all of the objectives or strategies within each subject. Clearly state your reasons (particularly if you disagree) and provide supportive information where possible; and
- suggest alternatives to deal with issues with which you disagree.

It is important to indicate those strategies and recommendations you agree with as well as those with which you disagree. Each submission is important, but those that give reasons for concerns, give support where appropriate and offer information and constructive suggestions are most useful.
