HAVE YOUR SAY

on the management plan for parks of the Walpole Wilderness Area

The Department of Conservation and Land Management, on behalf of the Conservation Commission of Western Australia, and the Walpole Wilderness Area Community Advisory Committee, is in the process of preparing a management plan for the parks of the Walpole Wilderness Area. The management plan will detail the purpose of the planning area and how the Department will manage it in the long term.

Have Your Say

Public involvement in how the planning area should be managed is an important part of the planning process and numerous opportunities will be provided for this to occur. You are invited to register your interest in the development of a management plan. In doing so, the Department can notify you of opportunities to contribute. All contributions are carefully considered and taken into account.

Although the details of the public participation process are yet to be finalised, it may include community workshops, public displays and submissions to the draft management plan. By providing your contact details we can inform you of events/opportunities as they arise and keep you up to date with our progress.

Progress can also be tracked by viewing our *NatureBase* website. As well as the "Have Your Say" brochure, NatureBase also provides a copy of the Issues Paper for the area, which can assist in guiding submissions. To view the "Have Your Say" brochure and Issues Paper, visit: www.naturebase.net/national_parks/management/man_have_your_say.html

If you wish to register your interest, or register on behalf of a group or organisation, please complete the form on this brochure and post it to the address shown.
