Waterwheel and view north — Cape Leeuwin

The Cape to Cape Walk Track is a great way to enjoy the coastal scenery from Cape Naturaliste to Cape Leeuwin. The track is approximately 140 kilometres long, and there is no charge to walk. It passes through some of the most magical coastal and forest scenery on offer anywhere.

Although the Leeuwin-Naturaliste National Park is only a narrow coastal strip in places, the walk frequently offers wilderness-like landscapes, with little or no signs of human intervention.

The Cape to Cape Walk Track is not just for experienced walkers. It offers a whole range of spectacular short walks suitable for all ages and levels of fitness. This is possible because of the numerous public access roads that cross or pass close to it.

Each sectional brochure in this folder suggests short walk options for those wishing to walk one to four hours.

A Friends of the Cape to Cape Track has been formed and are actively assisting the Department of Conservation and Land Management to maintain the walk.

We are sure you will enjoy this world-class walk in any season.
