

RESERVE ACTION SHEET - CONSERVATION RESERVES

RESERVE No. 11153

REASON FOR ACTION

Creation of a new nature reserve, with a management order issued to the Conservation Commission for the purpose 'Conservation of Flora and Fauna'.

Area: 19.97 hectares

The reserve consists of three vegetation communities consisting of woodlands of salmon gum, York gum and gimlet, which are poorly represented on wheatbelt nature reserves. It contains many mature trees that provide nesting opportunities and shelter for a number of bird and mammal species. Furthermore, this reserve occurs low in the landscape, yet is presently unaffected by salt. Clearing may result in a rising local water table.

- Date of DOLA's advice: 24 October 2000 See folio: 17
- Plans at folios: 19,18
