Executive Director
DEPT OF LAND ADMINISTRATION

Attn: Tim Hillyard

RESERVE C23157 - "WATER"

Recent Reserves Bill action resulted in the cancellation of the above reserve and amalgamation into adjoining nature reserve A23156 "Conservation of Flora and Fauna". Attached for your information is a copy of the relevant extract from the Reserves Act 1994 and subsequent gazettal action of 15 July 1994.

p. 13e *p. 126-129*

Records indicate an anomaly exists with respect to the area of Reserve 23156. The area of 313.1734 hectares quoted in the Reserves Act 1994 prior to the addition of cancelled Reserve 23157 (24.25 hectares) appears to be understated. The correct area should be 343.1734 hectares. The total area including the addition of cancelled Reserve 23157 should be 367.4318 hectares.

Could you please investigate the matter and forward advice accordingly.

for Syd Shea
