CLAUSE 22

Reserve 29452 was proclaimed Class 'A' in November 1988 and vested in the Aboriginal Lands Trust for the "Use and Benefit of Aboriginal Inhabitants" with power to lease the whole or any portion thereof for any term. The reserve contains Milyuga Location 2 and comprises an area of about 4144 hectares. It is situated in the Gibson Desert.

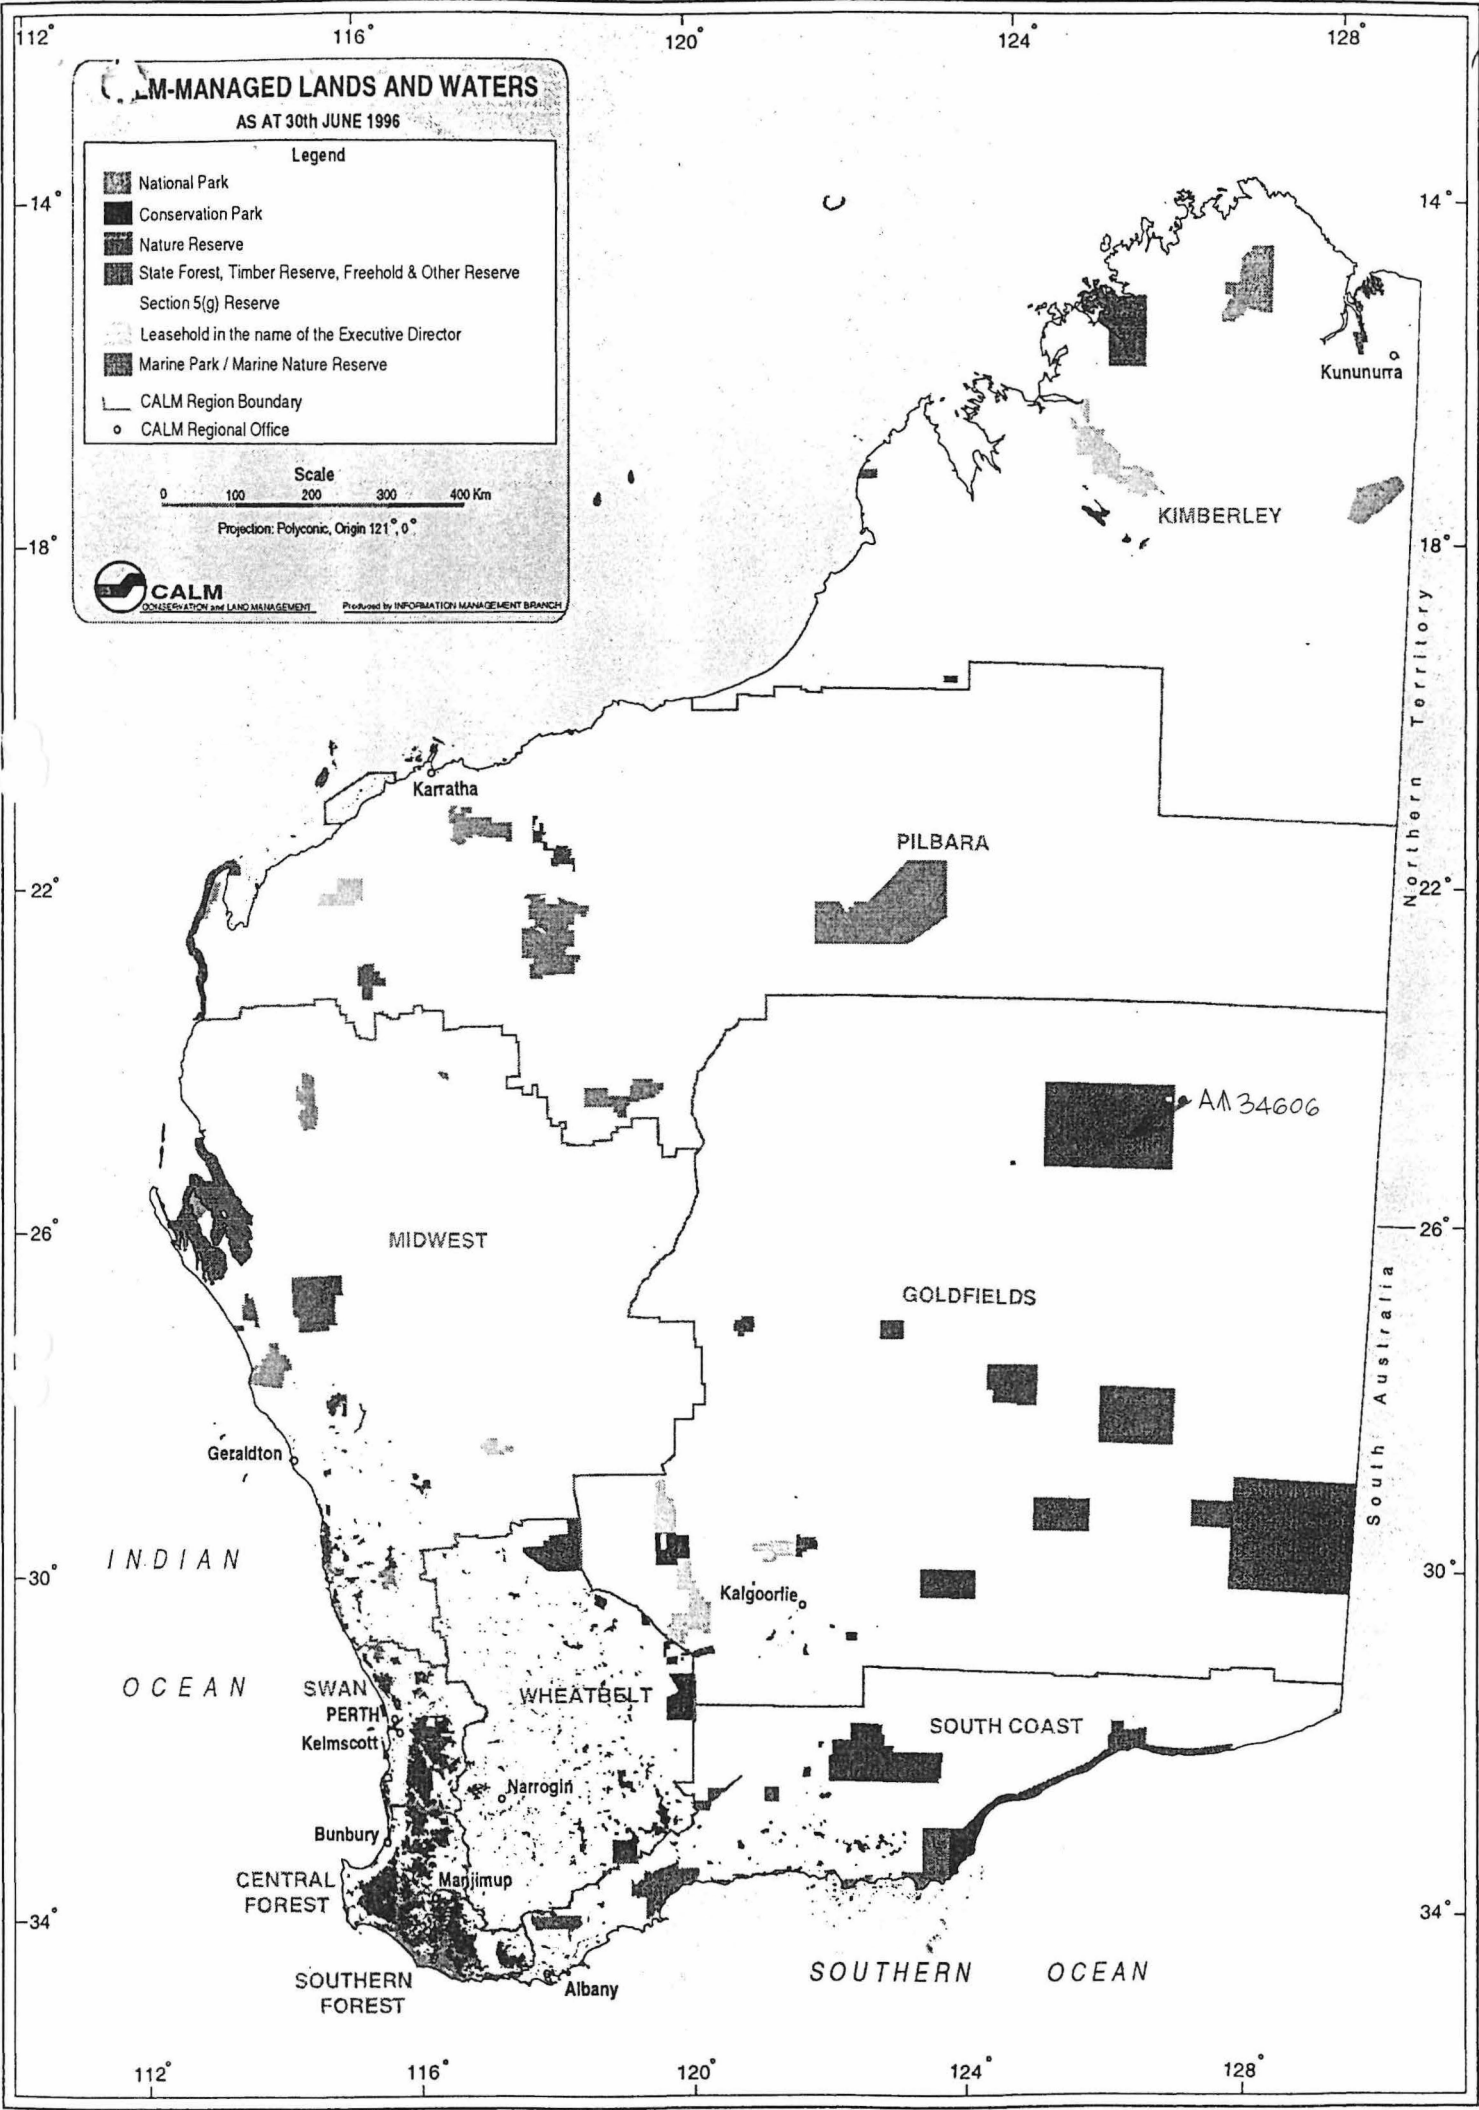

In October 1994 Cabinet approved of the excision of an area, (now calculated at about 16,422 hectares), from Class 'A' "Conservation of Flora and Fauna" Reserve 34606 - known as the Gibson Desert Nature Reserve - and its inclusion into contiguous Class 'A' Reserve 29452. This approval was subject to Department of Minerals and Energy clearance. That Department has subsequently advised that no objection to the proposal is raised.

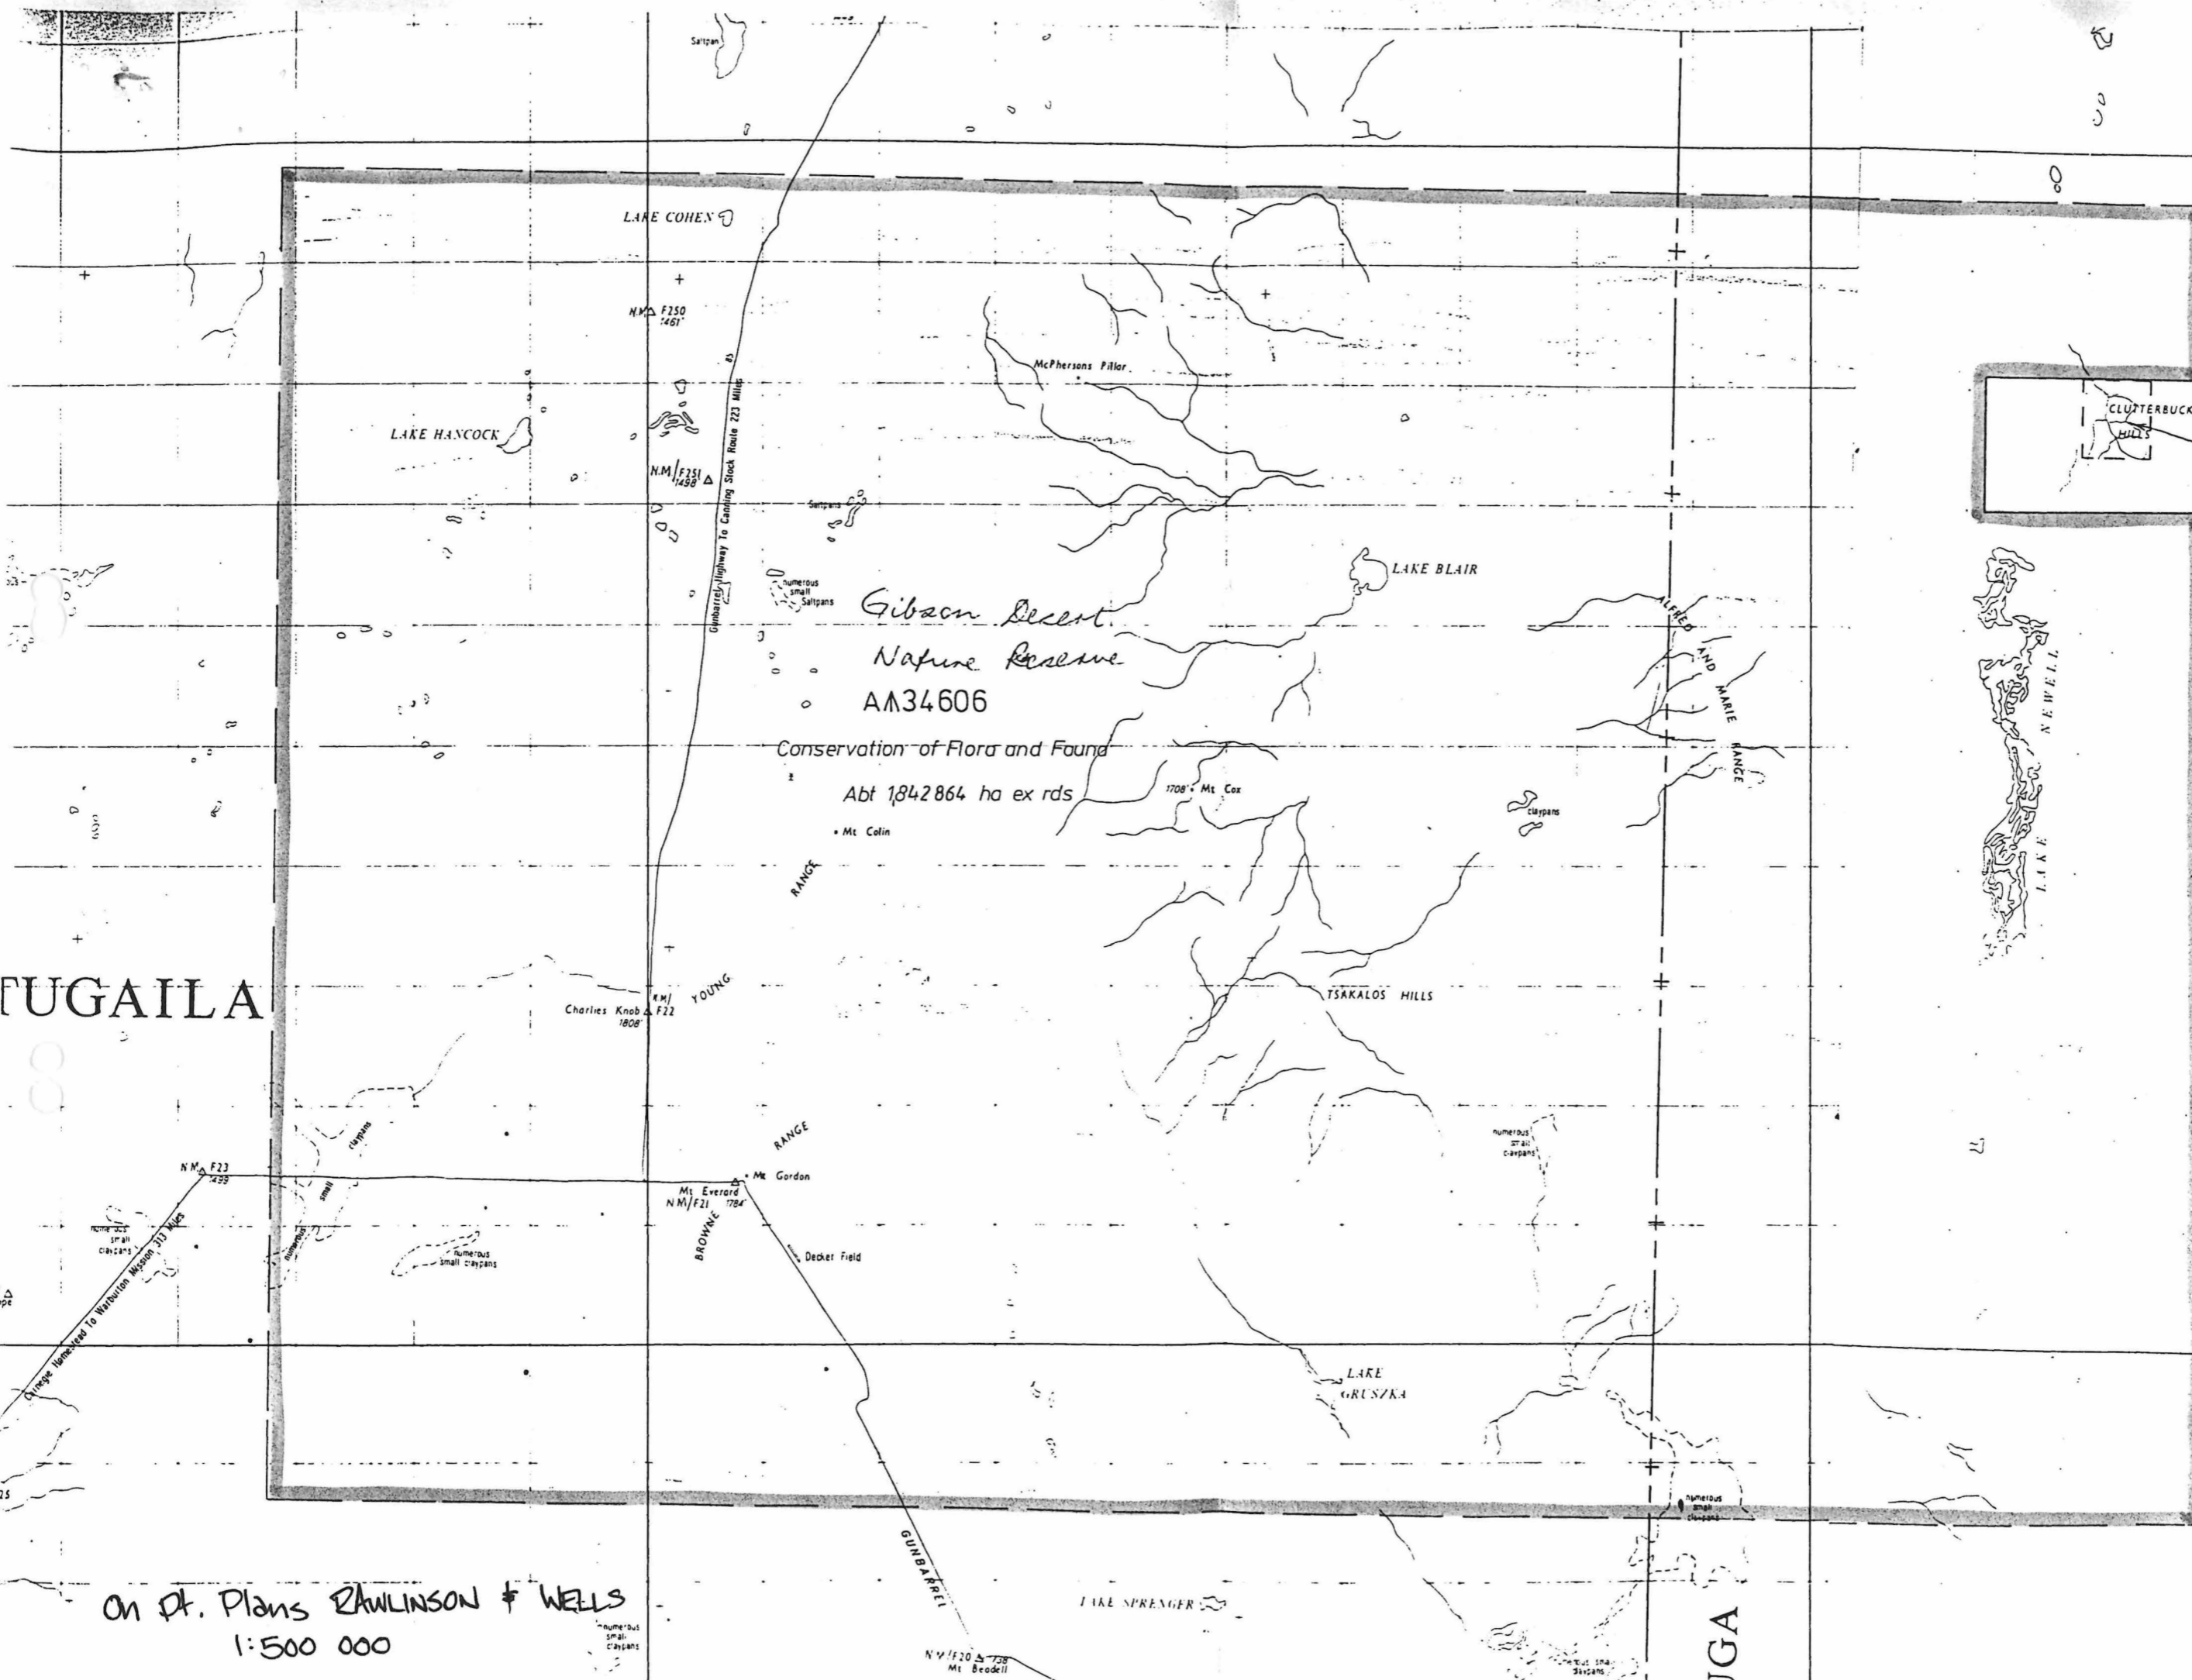

The inclusion of the subject land into Reserve 29452 will increase the area of this reserve from about 4144 hectares to about 20,566 hectares. Correspondingly the area of Reserve 34606 would be decreased from about 1,859,286 hectares to about 1,842,864 hectares.

As Reserve 34606 was vested in 1977 in the then Western Australian Wildlife Authority (now the National Parks and Nature Conservation Authority) and Reserve 29452 in the Aboriginal Lands Trust (1988) the implementation of the proposal represents minimal impact on the possible existence of native title rights and interests. The proposal having the effect of transferring care, control and management from one Agency to another.

In view of the Class 'A' classification of both reserves, this clause seeks the approval of both Houses of Parliament to give effect to Cabinet's decision.
