

BRAINS TRUST - GROUP 2

BRAINS TRUST - GROUP 2

- Protection of assets – homesteads, fences, infrastructure, cultural values, high values refugia & fire sensitive communities from inappropriate unplanned fire
- Within 15 years, establish a mosaic that will restrict large homogenous fires to < XXXX ha
- Acquire knowledge to enable management for fire sensitive biota/ communities

BRAINS TRUST - GROUP 2

- For major vegetation communities ensure persistence of all biota/ assemblages/ communities
- Regularly define required heterogeneity for major veg communities via data collation/ targeted research
- Maintain heterogeneity – structural, spatial, seral, temporal and species composition

BRAINS TRUST - GROUP 2

Conservative approach initially – for any veg community - max area burnt in one year < XX% (proportion modified by analysis of cumulative rainfall) and distributed throughout veg community

BRAINS TRUST - GROUP 2

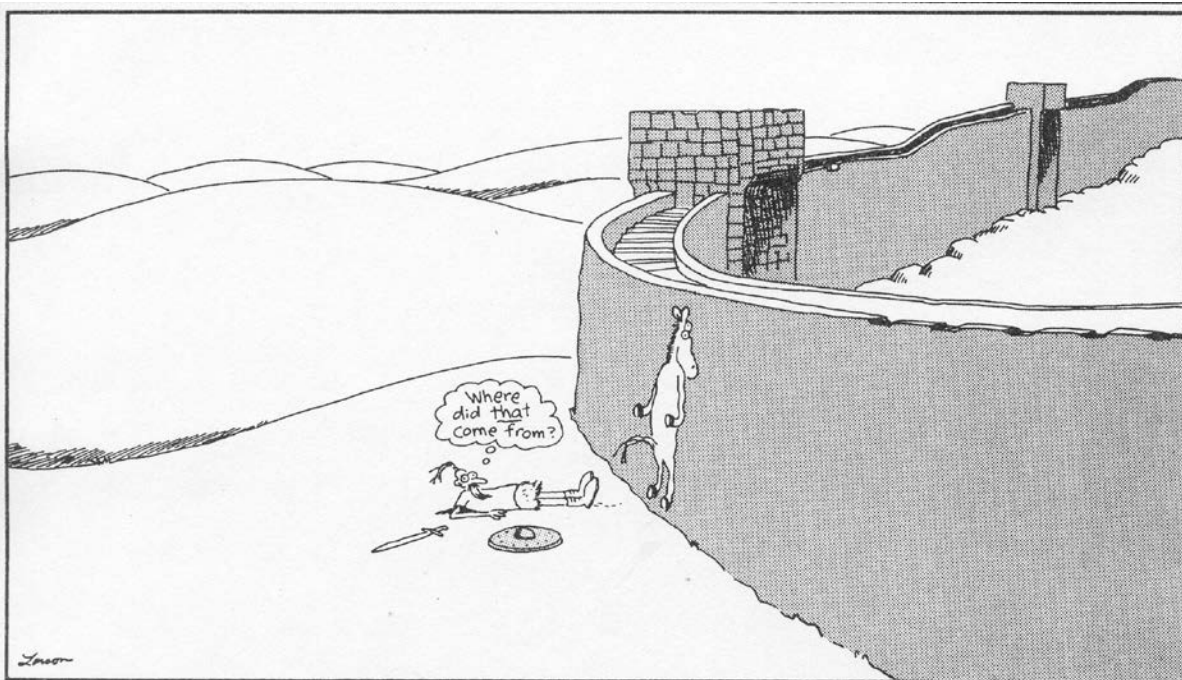

her answer off by miles, Sheila's "cow sense" was always a target of ridicule.

- Establish and maintain engagement with stakeholders – particularly neighbours to attain complementary management across jurisdictions/ tenure

BRAINS TRUST - GROUP 2

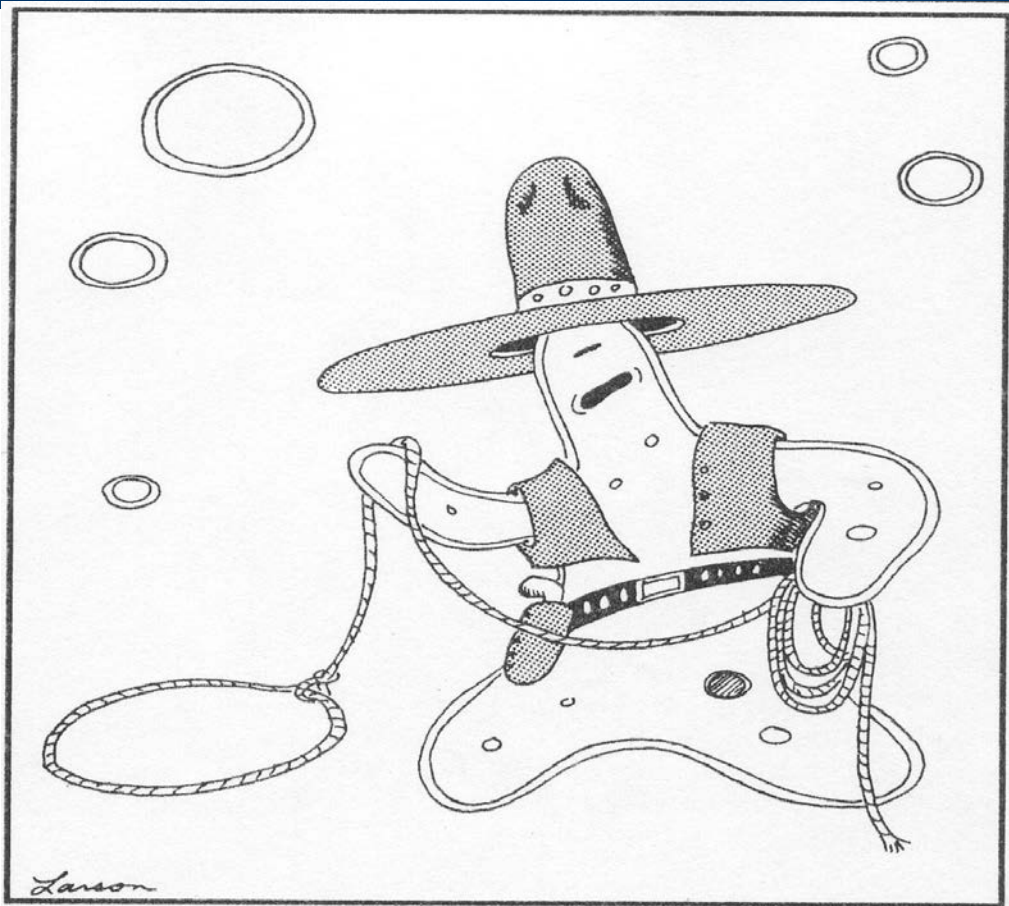

- Monitor bi-annually with remote sensing to assess/ revise future fire

BRAINS TRUST - GROUP 2

- Develop and apply an adaptive management process that targets major knowledge deficiencies
- Develop a regional fire management strategy in cooperation with adjacent land managers that facilitates complementary management arrangements & outcomes
- CALM FC officers to have conversational language skills in at least one aboriginal dialect

BRAINS TRUST - GROUP 2

“So, until next week — Adios, amoebas.”
