

Annotation services and how to make them work for collections curators

Ben Richardson, WA Herbarium

Abstract

Annotations in the Atlas of Living Australia have so much potential, some of it unrealised. One significant resource-saving for the collections community would be for the specimen database environments to make full use of ALA's annotations API.

Atlas of Living Australia Science Symposium

Tuesday 10 May 2016

To

Friday 13 May 2016

**Keiran McNamara Conservation
Science Centre, Kensington, WA**
