

Environmental Product and Service Directory

for Western Australia's Automotive Industry

2002 Edition

This directory has been compiled by the Green Stamp Program, the Department of Environmental Protection and the Water and Rivers Commission to assist automotive business owners and managers to identify the suppliers and contractors that will help them implement environmentally sound practices.

How to use this directory

- 1 On the top row find the waste product (centre pages) or goods (back page) that you wish to dispose of or purchase.
- 2 Follow it down till you find the tick (✓) that corresponds with a business that deals with that waste or product.
- 3 Contact the relevant business for more details and choose the one that best suits your needs.

The Green Stamp Program

The Green Stamp is an innovative program developed by the Motor Trade Association of Western Australia in conjunction with the Department of Environmental Protection with funding assistance from the Waste Management and Recycling Fund.

The program is as much about businesses increasing efficiency, reducing costs and gaining a competitive advantage as it is about protecting the environment.

The Green Stamp provides a range of free consultancy services to small and medium automotive businesses including independent environmental audits, industry specific guidance notes, environmental training seminars and regular newsletters.

For further information on the Green Stamp Program contact Bernie Riegler at the MTA-WA on (08) 9345 3466 or email briegler@mta-wa.com.au www.mtawa.com.au

Motor Trade Association of Western Australia (Inc)

Department of Environmental Protection
Water and Rivers Commission
Amalgamating to form the Department of Environment, Water and Catchment Protection

Though every possible effort has been made, the Green Stamp program, MTA-WA, Department of Environmental Protection and Water and Rivers Commission accept no responsibility for the accuracy of information or environmental integrity of the companies herein.

PRODUCT PROVIDERS

For the supply of products that will help minimise the environmental impacts of the automotive industry.

	Thinner recycling systems	Oil/water separator	Spill kits	Small parts cleaners (Non-solvent)	Spray gun washers	Bunding	Engine coolant recycler	Cleaning fluid recycling systems
