(21)

Pelicans hesitation in closing
 on the bait en masse. A total
 of about 60 birds were present of
 which 20-30 may be trapped
 in ideal conditions. Picked
 all the green up & headed
 into the van & trailer.

After coffee drove to Captain Harbour
 Pelican point where 100+ birds
 were seen nesting. 15-20 young
 birds showed distinct interest
 in bait. Net was set with
 fairly strong westerly breeze.

Perfect condition apart from
 lack of water. Netted 20
 birds of about 30-40% net.
