Two Pelicans to Cokuna

00901

00902 Orange band left by
Both birds had 2° on left
wing clipped 900 had first 7°
clipped also. Remaining 3 1° covered
very chipping, got quite at ease
when released. Swam closer
to us & in preference
swims. I was able to
approach the bird & pick
it up then placing it in
the water. Bird swam
cautiously & the two joined

(4)

by one other.

Photos. Took out
P.H. & on to Alaska:

1330 Spoke to
 Ron McEwen, Owen McEntee
 Cedric & Alf Smith.

The problem is two fold.
 2-3000 Little Black & Red
 Cys. they are small cobbler
 & large fish. August - October

Several large Red & Black taking
 fish from nets & Sonography
 gear.

I need to revisit in
 July-October period
 to view the situation.

Accompany Owen Mc
 & Alf Smith on several (2 or 3)
 occasions to observe
 traps, taking fish & inspect
 the damage.
