28/2/96

Arrived at Hedland at 0730 &
met Mel McKenzie & Kelly
Sanderson. Obtained maps & key.
Bought wheel rim from Wanda
& had 2 new 8 ply 650 x 13 Tyres
Plus 1 x 650 x 13 6 ply.
Filled 2 8 ply in front of truck
& 6 ply in rear.

Cleared out sewage works - Bird list
Now Drive to Cuyler Salt Lake bird
count. Drive clockwise around
Pond 3rd & other ponds.
Counted Storks (2000)
Other waders (4000)
Some common rds.
Desert mist net site
Looks very good.

(29)

Deposed L.H. truck tyre
with 6 ply.

On to Parkes Drives 4.00
on to Sandfire Tea. 9.00
Numerous oriental flocks on road.
Large flocks feeding at dusk from
Parkes to Sandfire.

Then saw many singles on road.
Drive on to A.P. & on to beach.

223

2230

Off at beach site. Saw birds
in from west. Strong westerly

(39)

TP. Delivered a talk on his
work on knots. It is clear that
there are many hypotheses for knotting
behaviour. Why have fish knot
suspended their mouth before
competition do breeding condition
Do they complete it at breeding sites
or on en route.

(40)

Monday 4/3/96

0550 Set net at
BBB site + fired
at 1030. Caught
small flock of 200 + processed all
very hot very humid. Light
breezy made conditions bearable.
Trimmed length of hair birds in cages
Removed top 10 cm soil under cages.
Receded Temp 35 - release birds
Flagged all birds
looked at mouth of all knots.

(41)

Tues. 5/3/96

0630 Set net
now Catch at Quarry Bel
800 + waders
Cleared BBB for mud unwork with
1800 take at Camphor
24 kms East of
Roebech S/Sth.

2000 Caught BBOP +
RknP

Photo 24 of wing with
arrested Molt: 2 cater 15 old
8 imm 105 new.

22 + 23 Theunis + RknP + BBOP
20-21 RknP mouth -
Caught 10 birds in total.

RknP were aged as at due

(42)

to completeness of the color of
the plumage, - dark black on back
with no mottling - Head complete
10 were aged as 510 -

BT Nalae Han was a young bird
with ~~bracket~~ 10 showing distinct
point at tips - like Juv ducks.

Amphipods were found free
swimming in an area where
the shits were seen
2330 off.

(43)

Wed. 6/3/96

0630 O'Leary. Discussion with Tokyo re
advises.

0800. Repaired boat + motor.

Tandem trailer axle has one
seized bearing. Replaced with
spare hub assembly.

(44)

6/3/96

Phone 206 1777

12 minutes

Check BA. for transfer of ticket
for Theunis + Petra.

Fixed net at 2 Dog Hermit for
553. Use H. Minton at range
attractor, busy tapes.

Chaos theory

Put boot in with Theunis Denny + me
went to BBO.

Chop to 1 m + 12 working over head
+ flocking. Could not get enough
weight to read. Basically too
heavy. Returned to vehicle +
assisted with birds.

Sail to BBO land at 1550

so to town for Humphrey's car
washing

(45)

6/3/96

TD wants Denny to do a PhD on
knots + Gt knots at Rockwell.
Looking at the differences in feeding
behaviour. May be able to find it
through Pearting industry.

David Pellegrer supports the concept
very strongly + wants to push the BBO.
Also a need for monitoring of
molluscs. Difficult to monitor
polychaetes. Mostly due to logistics
involved in casing deep mud. Also knots
+ Gt knots don't seem to be feeding
on ~~molluscs~~ polychaetes. Theunis' work
reveals they are dependant on a mollusc
(bivalve) - see Peter's work. for sp. ID.
Need to look at SAM polychaete work.
and design a monitoring program to include

(46)

28.8.

109 do birds caught 6/3 + 7/3
were retraps. (120 retraps today)

Smiled day with every meal
+ talk from Humphrey on
water feeding at night

David Pentelaw

(47)

Friday is a free day.

Mistnetting 0500 - 1000

Mound Springs 1000 - 1600
