

**'FILE 1 – WADER MOLT CARDS – PELICAN POINT  
[SWAN RIVER] – FEB 1976 TO ... [OCT 1977]'**

**RESEARCH MATERIALS CONSOLIDATION REPORT**

**JAK Lane  
WA Department of Parks and Wildlife**

**August 2014**

This particular **Research Materials Consolidation Report** is nothing more than a PDF of some hardcopy wader (shorebird) research materials of JAK Lane in 'as found' (on 11/08/2014) order.

In this case, the original (i.e. 'as found') materials are moult cards stored in a small (28 x 14.5cm), blue-grey, lever arch file. This RMCR is a PDF of all the materials in this lever arch file.

The contents of this RMCR are arranged exactly as in the lever arch file.

Note that these are not necessarily all the materials of this type. Other RMCRs might have similar, overlapping or related materials.

#### **MISCELLANEOUS NOTES ABOUT THE CONTENT OF THIS RMCR**

- The moult cards are dated from 04/02/1976 to 19/10/1977.
  - 'JL' & 'JAKL' was WA Department of Fisheries & Wildlife Research Officer Jim Lane. 'GBP' was JL's Technical Officer Grant Pearson. 'TGDS' might have been Geoff Shannon, an RAOU (now Birdlife Australia) volunteer.
  - Most of the moult-scored birds were Red-necked Stint, plus some Curlew Sandpiper (and possibly one or two birds of other species).
-

FILE 1.

WADER

MOLT CARDS

PELICAN

POINT

FEB 1976

TO

1. Molt information for waders trapped at Pelican Point (Suez River) is recorded in two ways:

a) Where little molt is ~~in progress~~ <sup>in progress</sup>, molt score is recorded in "Remarks" column of original data sheets

b) Where molt is active, molt score is recorded on Molt Cards.

These are then stored in this file. THIS INFORMATION HAS NOT BEEN COPIED FOR DUPLICATE STORAGE ELSEWHERE. THESE CARDS ARE THE ORIGINAL AND ONLY RECORDS.

2. These Molt Cards are in chronological order (most recent on top), and within each "night-group", they are firstly in order of band size (smallest on top) (i.e. Stint before Sandpiper), then new birds before retraps, then, chronological order (smallest on top)

EG TOP 2nd Dec 1976

032 - 01103	} new birds	} Stint
032 - 01105		
032 - 00611	} - retrap	} Sandpiper
040 - 11653
