NOTES

1. CLASSIFICATION OF RESERVES UNDER THE LAND ACT

CLASS A RESERVE

The Governor may by proclamation and subject to such conditions as may be expressed in the proclamation, classify a reserve as of Class A. Such land remains forever dedicated to the purpose declared in the proclamation until by an Act of Parliament it is changed.

CLASS B RESERVE

The Governor may classify a reserve as of Class B and on notice of such classification being published in the Gazette, the land remains protected from alienation or from otherwise dealt with unless and until the Governor cancels such reservation by notice in the Gazette. The Minister for Lands is required to present a report to both Houses of Parliament giving the reasons for cancellation and purpose to which it is intended to devote the land, within fourteen days from the cancellation.

CLASS C RESERVE

Any other reserve is also made by the Governor and classified as of Class C. The description of every reserve, and of the purpose for which it is made is published in the Gazette, and all reserves are set forth on the authenticated maps of the Lands and Surveys Department. Any changes to a Class C reserve or cancellation may be made by the Governor on the recommendation by the Minister for Lands without the necessity to refer the matter to Parliament.

2. NAMES

Names which have been formally published in the Government Gazette are underlined in the Alphabetical list.
