This is a major national park under the Board's control and is situated about 200 miles south-east of Perth and about 40 miles north of Albany. Steep rocky peaks rise some 3,000 feet above the relatively low-lying coastal plain which has the effect of adding to their grandeur. Hamilla Hill area (Plantagenet Locs. 7035 and 7094) included May, 1968. The highest peak, Bluff Knoll rises to 3,520 feet above sea level. An access road to a nearby levelled area at about 600 feet above sea level has been constructed and public toilets and change rooms provided. The Ranger-in-Charge is located at Moingup Springs, where picnic facilities have been provided. The other Ranger resides at the Bluff Knoll turn-off, from Chester Pass Road where there are picnic facilities. Other picnic facilties have been provided at suitable points alongside the Stirling Range Drive, near Redgum Spring, the Gold Holes, etc. Outstanding scenic views are obtained from points along the Stirling Range Drive.
