Eucalyptus descriptions

- accedens - tree 9-20 m , smooth greyish/white bark
- albida - mallee 3 m, smooth whitish grey bark
- anceps - mallee 1-4.5 m, smooth grey brown bark
- astringens - tree 17 m, smooth reddish-brown & green bark
- brachycorys - mallee/sm tree 6 m, smooth greyish upper bark, rough lower bark
- burracoppinensis - mallee 3 m, trunk bark grey-black
- calophylla - tree 33 m, rough grey brown flaky & friable bark
- calycogona - mallee 3 m, smooth dark or whitish grey bark
- celastroides - mallee/sm tree/tree 3-20 m, rough dark grey bark on trunk
- conglobata - mallee 2-4 m, smooth light grey bark
- cylindriflora - mallee 4-5 m, smooth powdery bark
- diptera - tree 6-7 m, smooth brownish red shiny bark
- drummondii - sm tree 4-8 m, smooth powdery white bark
- eremophila - mallee 3-6 m, smooth cinnamon brown bark
- erythronema
- var. erythronema - mallee/sm tree 2-6 m, smooth pink or white powdery bark
- var. marginata - mallee/sm tree 2-6 m, smooth pink or white powdery bark
- exilis - mallee 6 m, smooth pinkish grey-light grey bark.
- falcata - mallee/tree 3-9 m, smooth grey brown bark
- flocktoniae - mallee 12 m, smooth light grey bark
- foecunda - mallee/tree 2-9 m, smooth grey brown bark
- gardneri - tree 6-9 m, silver-grey bark shedding in small flakes
- gracilis - tree 18 m, rough flaky lower bark
- incrassata - mallee 4.5 m, smooth grey brown bark
- kondininensis - tree 15 m, black rough bark on lower trunk
- longicornis - tree 18-30 m, rough grey bark up to branches
- loxophleba
- subsp. gratiae - tree 6-13 m, smooth trunk
- subsp. loxophleba - tree 6-13 m, rough persistent grey bark on trunk
- macrocarpa - mallee 2-4 m, smooth brown-grey bark
- marginata - tree/mallee/sm tree 3-46 m, fibrous persistent reddish grey, brown bark
- myriadona - mallee 2-9 m, dark grey flaking bark, smooth red-brown branches
- occidentalis - tree 24 m, rough, flaky-fibrous lower bark, upper smooth yellowish/grey bark
- pachyloma - mallee 2-3.5 m, smooth grey bark
- pileata - mallee 3-6 m, smooth silver-grey bark
- redunca - mallee 1-3 m, smooth light grey-brown bark
- radis - tree 9-15 m, rough black bark on trunk
- salmonophloia - tree 20-30 m, smooth thick salmon pink bark
- salubris - tree 15-20 m, smooth greenish red/reddish brown bark
- sargentii - sm tree 7-10 m, rough dark grey flaky bark

- sheathiana - mallee or tree 3-8 m, smooth pale yellow-brown bark, ribbon shedding
- spathulata - mallee or sm tree 10 m, smooth red brown-grey bark
- transcontinentalis - mallee-tree 21 m, smooth white or grey bark.
- uncinata - mallee 1-3 m, smooth grey bark.
- wandoo - sm tree/tree 20-30 m, smooth mottled grey/white bark.
