

Hey, kids!

Help us get rid of this weed

There is a plant called Parkinsonia growing around our community. It damages other plants and can hurt some animals and birds. It can also grow around our favourite swimming and camping areas. It is a weed. That means it was not growing here when our ancestors first came to this place.

Now it is all over the place. We need to get rid of it and we need your help.

If you see this weed, please tell your teacher.
