

## How Might We...?

- How Might We...? Ensure that different approaches to V.R.M. across regions is LEGAL (eg Rock Fishing) or standardised or consistent?
- How Might We...? Progress our work on moorings and related environmental issues eg: effluent disposal?
- How Might We...? Deal more effectively with Indigenous matters and Aboriginal people as an organization?
- How Might We...? Engage more with regional and other DEC staff and business areas?
- How Might We...? Increase the resources and consideration of Visual Landscape Management in other agencies and developers planning and operations?
- How Might We...? Locate PVS facilities and developments in areas without catchment Protection Plans?
- How Might We...? Work out a more accurate RATIS (RecData) replacement cost for infrastructure lost to fire, flood etc?
- How Might We...? Restructure the PVS Workshop to deliver a broader and targeted range of outcomes eg management plans for Pastoral Lands?
