

How Might We....?

Improve DEC's web page and Provision of information

- Starting Point: from District through to top of Dec general lack of importance placed on information provision (both Brochures and Web info)
- Good information pre-visit is the first contact that visitors have with the Dept. Good information is about good management of visitors.
- For a world class parks system it's vital to have a world class website.
- Need to have coordination between brochures and website. A Statewide coordinated approach to provision of information.
- The 'guts' of the info has to come from the ground –the districts.
- If an online booking system is going to be a priority then you need to be able to find it!!
