

Money from proponents for a Land purchase as an offset (assisted purchase program).

Currently under EPBC Act for Carnaby's forage habitat loss on SCP.

- New Norcia 220ha (\$185k)
- Clackline 44ha (\$520ha)
- NW Gingin 948ha (\$350k)
- N Gingin 475ha (\$300k)
- E Badgingara 1,063ha (\$674+)
- Moore River river-frontage 45ha (\$300k)
- Regans Ford 762ha (\$360k)

Linear infrastructure impacting on DEC lands or threatened biodiversity assets.

Mitigation around TECs and Threatened Flora – principally through 10% POS planning provisions.

- Western Power – Gingin TEC sites 33ha
- Western Power - Mogumber WST 21ha
- MRWA – Roe Highway *C.huegelii* (land)
- MRWA – Perth Bunbury *D. elastica* (\$)
- Waikiki – Holocene dune swale TEC (\$)
- Wanneroo – *Banksia 20A* TEC (Mitigate)

# QUESTIONS ARISING

- Land purchase – is it too easy on option?
- Mitigation piss poor, but will we ever say no to urban development based on CBC?
- Soil transfer a great initiative, but ...
- How to demonstrate outcomes achieved?
- Is offset a net gain to biodiversity assets?
- DEC is generating significant costs.
