### 3. MARINE FACILITIES

#### 3.1 CALM MARINE FACILITIES

CALM is progressively establishing interpretative displays, signs and trails in marine parks and nature reserves. They are designed to enrich visitor enjoyment, experience and safety in the marine environment.

A marine visitor centre is established at Milyering (Cape Range National Park, Exmouth) and at Penguin Island. These can be used as a focus for educational activities relating to marine and coastal environments.

The offshore reefs and lagoons of Ningaloo and Marmion Marine Park offer great potential for educational programs. Dive trails are being established with the assistance of community groups. Boyinaboat Reef Trail, offshore from Hillarys Boat Harbour, is the first underwater nature trail in WA.

Enquire at Marine Park offices for more details.

### 4. HUMAN RESOURCES

#### 4.1 CALM HUMAN RESOURCES

Marine Park managers, rangers and wildlife officers regularly patrol marine parks, reserves, islands and reefs. They will be glad to help you with any questions you have.

- ♦ **Marine interpretation programs:** conducted by CALM staff. Enquire at Marine Park offices or watch for the University Extension and TAFE courses in newspaper supplements for details.
- ♦ **Field excursions or talks:** CALM encourages direct experience of natural environments. Marine Park staff and volunteer groups can visit schools or assist field excursions in the park if a booking is made at least four weeks in advance and if other commitments permit. We ask you to establish contact with the Marine Park Manager, then send in the completed form titled "Schools and Group Requests".
