DEPARTMENT OF CONSERVATION AND LAND MANAGEMENT

On behalf of the people of Western Australia,
the Department of Conservation and Land Management (CALM)
manages over 20 million hectares or 7% of WA:
its national parks, conservation parks, marine parks,
State forests and timber reserves, nature reserves,
marine nature reserves, and all associated forest produce,
native plants and animals. CALM is also responsible
for conserving native plants and animals throughout the State.

CALM is an agency with several integrated responsibilities.
We manage lands and waters for their renewable resources,
for the recreation and tourism they can support,
and for the conservation of the native wildlife,
both plant and animal, which they sustain.

For further information regarding the Department's activities,
please contact your nearest CALM regional or district office.
