# YANCHEP NATIONAL PARK MANAGEMENT PLAN

A Management Plan is now being prepared for Yanchep National Park.

## What is a Management Plan?

A Management Plan sets out clear directions for management of a park to ensure that the natural environment and wildlife are protected, and that services and facilities provided are effective and of an adequate standard. It can establish new directions for the park.

During preparation of the plan information on the resources of the park (geology, flora, fauna etc) is taken into account to determine:

- management objectives
- the best way to achieve those objectives.

## What is the Planning Process?

1. A draft plan is produced. Public participation in making the plan is important.
2. The draft plan is released for public comment.
3. A summary of public submissions and amendments to the draft plan is produced.
4. A final plan (suitably amended) is produced, for approval by the Minister for the Environment.

## A role you can play

YOU ARE INVITED TO GIVE US YOUR COMMENTS ON YANCHEP NATIONAL PARK, as we are currently collecting information for the preparation of the plan.

Aspects of the park that are so far being examined are listed. We would welcome your thoughts on these issues or on any others.

Please direct your comments to:

Vanessa Smith  
Project Co-ordinator  
Yanchep National Park Management Plan

We look forward to hearing from you.

## ASPECTS OF YANCHEP NATIONAL PARK BEING EXAMINED

### 1. Facilities and Services

- a) — kiosks
- swimming pool
- rowboats
- souvenirs
- golf course
- historic buildings
- ovals
- tennis courts
- picnic areas
- parking
- entrance area
- wildflower garden
- garden beds
- koalas
- koala feed plantations
- animal enclosure
- ornamental lakes
- caves (including Cabaret Cave)
- use of existing buildings
- information provided
- b) Recreation and interpretation (community environmental education) opportunities provided by some of the above.

### 2. Natural Environment

- a) — caves
- wetlands
- fire
- dieback control
- weeds
- kangaroos
- groundwater extraction
- feral animals
- exotic trees
- rare species
- additions of land to the park
- Aboriginal sites
- b) Recreation and interpretation opportunities in the natural environment.
