HAVE YOUR SAY

on the Esperance Coastal Reserves
Management Plan

The Department of Conservation and Land Management is, on behalf of the Conservation Commission of Western Australia, in the process of preparing a management plan for Esperance Coastal Reserves. Stokes, Cape Le Grand and Cape Arid National Parks, adjacent nature reserves and islands of the Recherche Archipelago will be included. The management plan will detail the purpose of the Parks and nature reserves and how the Department will develop and manage them over the long term, and will therefore provide a long-term vision for the future. Likely future management strategies for any proposed additions to the conservation estate in this area will also be considered.

Have Your Say
Public involvement in how the parks should be managed is an important part of the planning process and numerous opportunities will be provided for this to occur. You are invited to register your interest in the development of the management plan. In doing so, the Department can notify you of opportunities to contribute. All contributions are carefully considered and taken into account.

Although the details of the public participation process are yet to be finalised it may, for example, include community workshops, public displays and submissions to the draft management plan. By providing your contact details we can inform you of events/opportunities as they arise and keep you up to date with our progress.

If you wish to register your interest, or register on behalf of a group or organisation, please complete the form on this brochure and post it to the address shown.
