HAVE YOU SEEN THIS FLOWER?

Thelymitra psammophila
Sandplain sun orchid

YES I HAVE SEEN THIS FLOWER AND WOULD BE PLEASED
TO HELP WITH INFORMATION ON ITS DISTRIBUTION.

NAME

ADDRESS

PHONE

This sun orchid is rarely seen due to its habit of only opening on sunny days. It grows 18 to 25 cm high, has straight stems and between 2 and 5 lemon yellow flowers 14 to 18mm wide. The long narrow leaf is 5 to 7cm long and +4mm wide. It flowers from September to October.

CALM is working with the community to conserve the Sandplain sun orchid on private property and public owned land, including road reserves. CALM can help private property owners to look after this species, if it occurs on their property.

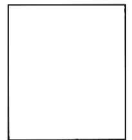

We are interested in finding out the distribution of this orchid in your area. If you have seen this flower, we would like to hear from you. You can help by returning the detachable form below.

If you would like more information please contact **Sarah Barrett** at CALM Phone: (08) 9842 4500 - Fax: (08) 9841 3329 or Community Representative **Nadine Brown** on (08) 9835 5043.

Your help in conserving our rare flora would be really appreciated.
