CAMPERS ...

BE PREPARED FOR BUSHFIRES

PLAN

Dangerous bushfires can start anywhere and at any time. Understand your risks and plan what you'll do to keep safe during a bushfire. Asking these three simple questions could save your life.

1. When will you know to leave?
2. Where will you go?
3. Which way will you go?

HOW FIREPROOF IS YOUR PLAN?

KNOW

- The Fire Danger Rating (FDR) for the areas you plan to travel and camp – campgrounds may be closed in severe or catastrophic FDR's.
- Find out where you can shelter safely nearby in case you need to leave - make sure you have your survival kit ready.
- Ask for information on alternative routes to leave the area.
- Always take advice from emergency services personnel if a bushfire occurs.

Your safety is our concern but ultimately your responsibility.
