# Pinnacles Desert Discovery

The Pinnacles Desert Discovery is a unique and spectacular experience within Nambung National Park, 200km north of Perth.

Rising mysteriously from the dune sands are thousands of limestone pillars up to 4m tall; a landscape in eerie contrast to the surrounding heath. Some are jagged, sharp-edged columns rising to a point; others resemble tombstones.

What exactly are the pinnacles? What natural processes created these odd and spectacular structures?

**Visit the Pinnacles Gallery** to find out more about the formation of the pinnacles.
