Pinnacles Desert Discovery

The Pinnacles Desert Discovery is a unique and spectacular experience within Nambung National Park, 200km north of Perth.

Rising mysteriously from the dune sands are thousands of limestone pillars up to 4m tall; a landscape in eerie contrast to the surrounding heath. Some are jagged, sharp-edged columns rising to a point; others resemble tombstones.

What exactly are the pinnacles? What natural processes created these odd and spectacular structures?

Visit the Pinnacles Gallery to find out more about the formation of the pinnacles.
