# THE CAVES OF AUGUSTA MARGARET RIVER

# THE HIDDEN WILDERNESS

PRODUCED & DESIGNED BY  
 CAVEWORKS - ECO MUSEUM  
 TEL 097:577411 - FAX 097:577421

.....THEY WHO ENTER THE UNDERWORLD WILL BEHOLD WONDERFUL SIGHTS.

FOR TO VENTURE THROUGH THE CRYSTAL LABYRINTH IS TO TAKE PART IN A JOURNEY THROUGH TIME ITSELF.....

Early explorers of the hidden wilderness of caves were fascinated at the mysterious sights they saw. You too will be amazed when you take part in a journey of discovery through the caves of the Leeuwin Naturaliste Ridge. Formed in limestones laid down two million years ago, the Mammoth, Lake, Jewel and Moondyne caves are a living time capsule of events long passed. For over 150,000 years the forces of nature have cut and carved the rock, created vast caverns, delicate crystal formations and provided homes to unique forms of flora and fauna. Exploring this hidden wilderness will reveal many secrets.

Some will be held forever.

#### Jewel Cave

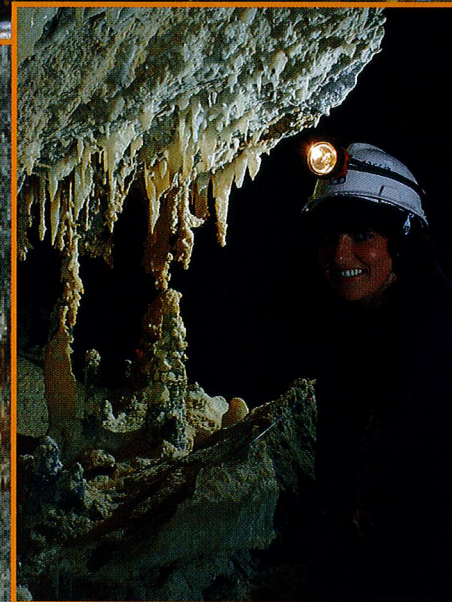

The lofty halls of The Jewel Cave and its underground wilderness are a sight to behold. Discovered in 1957 and opened for inspection in 1959 the cave is home to the largest straw stalactite to be found in any tourist cave. Fossil remains 25,000 years old have been found.

THE JEWEL

#### Moondyne Cave

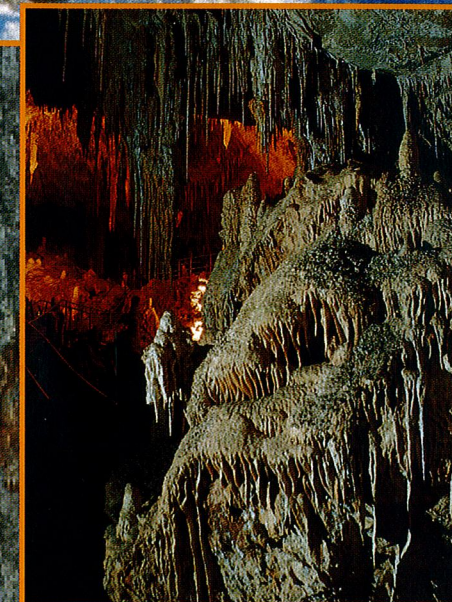

The most recently developed cave, Moondyne provides a new approach to tourist caving. Experience the thrill of adventure caving as you don overalls, helmet and miners light to explore the hidden wilderness. You will be safely guided by experienced cavers.

THE MOONDYNE

#### Mammoth Cave

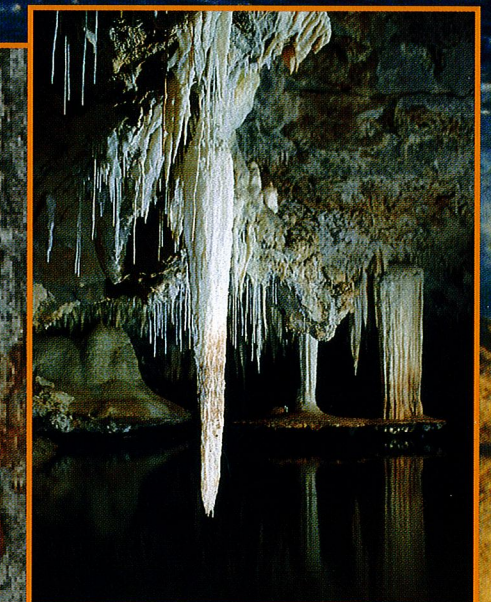

Revealing prehistoric fauna from over 35,000 years Mammoth cave provides easy viewing and a chance to view fossil remains of the now extinct *zygomaturus trilobus*, a wombat like creature. Mammoth was first recorded in 1850 and explored later in 1895.

THE MAMMOTH

#### Lake Cave

Holding an aura of peace and mystery with its many limestone formations reflecting in the still waters of an underground stream, Lake was first recorded by Fanny Bussell in 1867. It was not until 1890 that the sheer walls of the entrance doline were overcome.

THE LAKE
