Bibliography of environmental studies of the southern metropolitan coastal waters of Perth

A contribution to the
Southern Metropolitan Coastal Waters Study (1991-1994)

Environmental Protection Authority
Perth, Western Australia
Technical Series No 45
January 1992

**Bibliography of environmental studies of the
southern metropolitan coastal waters of Perth**

**A contribution to the
Southern Metropolitan Coastal Waters Study (1991-1994)**

by J. L. Cary and T. Ryall

ISBN. 0 7309 4713 0
ISSN. 1030 - 0600

Note to users

Many entries in this bibliography are consultant and internal state and federal government departmental reports. These publications are often of restricted circulation or indeed are only single copies. These entries have been included as unpublished. Should they be required the user is advised to go directly to the author or the organisation concerned.

Original names of government departments and consultancy companies at the time of publication have been used in this bibliography.

Although every attempt has been made to make this bibliography comprehensive, the list should not be considered exhaustive.

Acknowledgements

The authors would like to thank the Department of Defence for the use of their unpublished bibliography, which was part of the Public Environmental Review for the extension of the HMAS Stirling Naval Facility. Thanks also to the the librarians from the government departments, universities and consultancy companies for responding to our requests for relevant documents. Special thanks to Tracy Bell and Ben Von Perger for their assistance during the compilation of the document, Trudy Parker for her technical and editorial assistance and Helen Bradbury for editorial assistance.
